### PRECAUTIONARY STATEMENTS Hazards to Humans & Domestic Animals WARNING

May be harmful if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wash hands, arms, and face thoroughly with soap and hot water before re-use.

Do not use as a space spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not store near feed or food products. Avoid contamination of feed, food, food processing equipment, and food handling surfaces. Do not apply to animals. Remove pets and cover fish bowls before spraying. Do not spray plants. Avoid breathing spray mist.

Do not use in edible products area of food processing plants.

#### ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

#### PHYSICAL AND CHEMICAL HAZARDS

DO NOT use or store near heat or open flame.

#### STORAGE AND DISPOSAL

##### PROHIBITIONS

- DO NOT contaminate water, food, or feed by storage or disposal
- Open dumping is prohibited
- DO NOT reuse empty container

##### PESTICIDE DISPOSAL

"Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance."

##### CONTAINER DISPOSAL

**Metal Containers:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**Plastic Containers:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**WARRANTY STATEMENT** - This product is designed exclusively for industrial and institutional use by trained professional maintenance personnel. Label directions and precautions must be followed exactly. Selig Chemical Industries will not be responsible for injury, loss, or damage if product is used in any manner not in compliance with label directions or if precautions are not observed.

## SELIG'S SNIPER RESIDUAL SPRAY

### For Industrial and Institutional Use

Residual Spray is a highly effective ready to use formulation for the insects listed below, including those resistant to certain hydrocarbon and phosphate insecticides. This product, containing a hydrocarbon and phosphate insecticides, gives rapid kill and long residual activity.

#### ACTIVE INGREDIENTS:

2-(1-Methylethoxy) phenol methylcarbamate

#### \*INERT INGREDIENTS:

\*Contains petroleum distillates.

### KEEP OUT OF REACH OF CHILDREN WARNING

#### STATEMENT OF PRACTICAL TREATMENT

**If Swallowed:** Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water. DO NOT induce vomiting. Aspiration pneumonia is a hazard.

**To Physician:** Atropine sulfate is antidotal.

**If inhaled:** Remove victim to fresh air, and provide adequate ventilation. Apply artificial respiration if indicated.

**If on Skin:** Flush skin with water for 15 minutes. Wash with soap and water after handling.

**If in Eyes:** Immediately flush with water. If irritation persists, seek medical attention.

See side panel for additional precautionary statements.

# SELIG'S SNIPER

## RESIDUAL SPRAY

### Commercial and Institutional Use

Highly effective ready to use formulation for control of insects below, including those resistant to certain chlorinated phosphate insecticides. This product drives insects into places, gives rapid kill and long residual activity.

Active Ingredients:	
Phenol methylcarbamate	1.00%
Permethrin	99.00%
Other Ingredients	100.00%

100% Distillates

### TREATMENT OF REACH OF CHILDREN WARNING

#### STATEMENT OF PRACTICAL TREATMENT

Consult a physician or Poison Control Center immediately in case of ingestion. Give plenty of fluids. DO NOT induce vomiting. Product residue on skin and aspiration pneumonia is a potential concern.

Aspirin and salicylate are antidotal.

Remove victim to fresh air, and provide adequate ventilation. Seek medical attention if indicated.

In case of eye contact, flush with water for 15 minutes. Wash with soap and water.

In case of skin contact, immediately flush with water. If irritation persists, get medical attention.

See back panel for additional precautionary statements.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**GENERAL:** Do not apply this product using a trigger pump sprayer. This product must be applied with a low pressure sprayer equipped with a coarse spray nozzle. Spray surface only until wet. Avoid excessive run-off. Apply to all insect breeding sites and harborages. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

**Cockroaches** - Thoroughly treat the infested area. Spray baseboards, cracks and crevices, around window and door frames; the under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, sinks and stoves, in and around waste containers, switch panels, junction boxes, floor drains and other places where cockroaches hide or rest.

**Ants** - Apply to trails and places where ants enter premises such as window and door sills. Spray hills and runways outdoors.

**Caddisflies, Cigarette Beetles, Dermestids, Drugstore Beetles, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Saw-toothed Grain Beetles and Weevils (exposed stages)** - Thoroughly treat floors and the walls of the infested area with attention to cracks, crevices, corners, and perimeter. Sanitation and dust control are of primary importance. Fumigate or destroy infested products.

**Silverfish, Firebrats and Paperlice** - Apply to localized areas infested with these insects.

**Brown Dog Ticks** - Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

**Clover Mites, Crickets, Earwigs, Millipedes, Centipedes, Sowbugs, Scorpions and Spiders** - Thoroughly spray the interior and exterior perimeter of the infested premises. For Clover Mites give special attention to window sills.

**Fleas, Flies, Gnats, Mosquitoes, Punks and Sandflies (outdoors only)** - Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios and other areas where insects may enter. Do not spray vegetation.

**For Use in Meat Packaging and Food Processing Plants:** Use only in the inedible product areas of meat packing plants, including those that are federally inspected. Any exposed food products, equipment, or packaging materials must be removed or covered before spraying. Wash all equipment with a detergent solution and rinse with potable water after spraying and before resuming operations. Treat food processing plants early in the season before canning or other processing begins. Repeat applications, if necessary, when plant is not in operation. Spraying unloading docks and outside areas where insects congregate will aid in preventing re-infestation. Good sanitation and proper disposal of wastes is essential in any effective insect control program.

**Insect Control in Research Facilities:** The use of Residual Spray in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

**KILLS:** Ants, Brown Dog Ticks, Centipedes, Cockroaches, Clover Mites, Crickets, Earwigs, Firebrats, Fleas, Flies, Gnats, Millipedes, Mosquitoes, Paperlice, Punks, Sandflies, Scorpions, Silverfish, Sowbugs and Spiders. Exposed stages of Caddisflies, Cigarette Beetles, Dermestids, Drugstore Beetles, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Saw-toothed Grain Beetles and Weevils.
