NET WEIGHT 2 LBS.

SLICK

ACTIVE INGREDIENTS:

Trisodium Phosphate	12.9%
Sodium Dodecylbenzenesulfonate	1.9%
Sodium Hypochlorite	0.4%

INERT INGREDIENTS: 84.8%

Recommended for use in hospitals, hotels, restaurants, industrial plants, factories and nursing homes. Excellent for use on tubs, wash bowls, fixtures, equipment, floors, walls, machinery, wash basins and sinks. Easily removes rust and other stains, corrosion and most soils from all surfaces, including tile, terrazzo, wood and composition floors — and marble, porcelain, metal, enamel and painted surfaces. Cleans ugly grease and grime from stoves. Gets porcelain white as new.

DIRECTIONS

GENERAL — Cleans, disinfects and deodorizes at one time. Wet surface to be cleaned, then sprinkle SLICK and clean in conventional manner with cloth, sponge, or mop. For heavily stained surfaces, work up a foam with SLICK and let stand. Follow by rinsing. Repeat if necessary.

FLOORS — Wet floors and sprinkle with SLICK. Scrub with hand brush or floor machine. Steel wool or nylon pads may be used if preferred. Rinse thoroughly and let dry.

NOTE: Not recommended for use on silverware. Do not use in conjunction with acid products such as toilet bowl cleaners. Avoid contamination of food.

CAUTION

**KEEP OUT OF THE REACH OF CHILDREN
HARMFUL IF SWALLOWED**

Avoid contact with eyes. In case of contact with eyes flush with water for 15 minutes. If irritation persists, see a physician.
