I certify that this notification is consistent with PR 95-1 and EPA regulations at 40 CFR 152.46 and that no other changes have been made to the labeling of this product. I further understand that if this notification is not consistent with the terms of PR Notice 95-1 and 40 CFR 152.46, then this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

3 7 4

AMBUSH is a highly effective residual insecticide for control of the insects listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product drives insects from their hiding places, gives rapid kill and residual activity.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product using a trigger pump sprayer. This product must be applied using a compressed air sprayer.

KILLS: Ants, Brown Dog Ticks, Centipedes, Cockroaches, Clover Mites, Crickets, Earwigs, Firebrats, Fleas, Flies, Gnats, Millipedes, Mosquitoes, Paperlice, Punksies, Sandflies, Scorpions, Silverfish, Sowbugs and Spiders.

GENERAL: Mix 16 fluid ounces (1 pint) of **AMBUSH** in one gallon of water. Apply with a low-pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive run-off. Apply to all insect breeding sites and harborages. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

Cockroaches - Thoroughly treat the infested area. Spray baseboards, cracks and crevices, around window and door frames, the under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, sinks and stoves, in and around waste containers, switch panels, junction boxes, floor drains and other places where cockroaches hide or rest.

Ants - Apply to trails and places where ants enter premises such as around door and window frames. Spray hills and runways outdoors.

Silverfish, Firebrats and Paperlice - Apply to localized areas infested with these insects.

Brown Dog Ticks - Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

Clover, Mites, Crickets, Earwigs, Millipedes, Centipedes, Sowbugs, Scorpions and Spiders - Thoroughly spray the interior and exterior perimeter of the infested premises. For Clover Mites give special attention around window frames. Do not spray vegetation.

Fleas, Flies, Gnats, Mosquitoes, Punksies and Sandflies (outdoors only) - Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios and other areas where insects may enter. Do not spray vegetation.

For Use in Meat Packing and Food Processing Plants - Use only in the inedible product areas of meat packing plants, including those that are federally inspected. Any exposed food products, equipment, or packaging materials must be removed or covered before spraying. Rinse all equipment with water before resuming operations. Treat food processing plants early in the season before canning or other processing begins. Repeat applications, if necessary, when plant is not in operation. Spraying unloading docks and outside areas where insects congregate will aid in preventing re-infestation. Good sanitation and proper disposal of wastes is essential in any effective insect control program.

Insect Control in Research Facilities: The use of **AMBUSH** in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

WARRANTY STATEMENT

This product is designed exclusively for industrial and institutional use by trained professional maintenance personnel. Prior to using this material, read complete label and Material Safety Data Sheet on file at your place of work. Label directions and precautions must be followed exactly. Selig Chemical Industries will not be responsible for injury, loss, or damage if product is used in any manner not in compliance with label directions or if precautions are not observed.

SELIG'S AMBUSH

"FOR INDUSTRIAL AND INSTITUTIONAL

**An Emulsifiable Residual Insecticide Co
To Be Diluted Before Use**

ACTIVE INGREDIENTS:
2-(1-Methylethoxy) phenol methylcarbamate
***INERT INGREDIENTS**

*Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN WARNING

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Give 1-2 glasses of water. Do not induce vomiting or give anything by mouth to an unconscious person.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS WARNING

May be fatal if swallowed, inhaled, or absorbed through the skin. Do not breathe vapor. Do not get in eyes, skin, or on clothing. Do not use as a space spray. Provide adequate ventilation of area being treated. Avoid breathing spray mist. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not apply to animals. Remove pets and cover fish bowls before spraying. Do not spray plants. Wash thoroughly with soap and water after handling.

Do not store near feed or food products. Avoid contamination of feed, food, food processing equipment and food handling surfaces.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by disposal. Open dumping is prohibited. Do not re-use empty container.

PESTICIDE DISPOSAL:

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
