**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS & DOMESTIC ANIMALS  
WARNING**

Harmful if swallowed. May irritate eyes, nose, throat and skin. Avoid breathing of vapors.

**ENVIRONMENTAL HAZARDS**

DO NOT apply, drain, or flush equipment on or near desirable trees or other plants or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. DO NOT use on lawns, walks, driveways, tennis courts, or similar areas. Prevent drift of spray to desirable plants. DO NOT contaminate domestic waters. Keep from contact with fertilizers, insecticides, fungicides, and seeds. Thoroughly clean all traces from application equipment immediately after use; otherwise, injury to desirable vegetation may result when equipment is used again.

**PHYSICAL & CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

**STORAGE AND DISPOSAL**

- Do not contaminate water, food or feed by storage, disposal or cleaning of equipment
- Keep container closed when not in use
- Open dumping is prohibited
- Do not re-use container

**PESTICIDE DISPOSAL**

"Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance."

**CONTAINER DISPOSAL**

**Metal Containers:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**Plastic Containers:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture or dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**MR. TRIPLE ZERO  
WEED KILLER**

**NON-SELECTIVE TYPE**

**EMULSIFIABLE CONCENTRATE-TO BE DILUTED WITH WATER OR PETROLEUM DISTILLATE BEFORE USE.**

**Multi-Purpose-Kills Most Growth-Kills Johnson grass and Poison Ivy**

**ACTIVE INGREDIENTS**

BROMACHL (5-Bromo-3-sec-butyl-6-methyluracil) 1.32%

\*INERT INGREDIENTS 98.48%

**TOTAL 100.00%**

\*Contains Petroleum Distillates

**KEEP OUT OF REACH OF CHILDREN.  
WARNING**

**STATEMENT OF PRACTICAL TREATMENT**

**If swallowed:** Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water. DO NOT induce vomiting. Product contains petroleum distillates and aspiration pneumonia is a potential hazard.

**If inhaled:** Remove victim to fresh air, and provide adequate ventilation. Apply artificial respiration if indicated.

**If on skin:** Flush skin with water for 15 minutes. Wash with soap and water after handling.

**If in eyes:** Immediately flush with water for 15 minutes. If irritation persists, get medical attention.

See side panel for additional precautionary statements

**Manufactured By:**

840 Selig Drive, S.W. \* Atlanta, GA 30336 \* (404)691-9220

**GENERAL INFORMATION**

A water-emulsifiable concentrate to be diluted with water and applied as a spray on non-cropland areas where bare ground is desired. It is an effective general herbicide for the control of many annual and perennial weeds and is particularly useful for the control of perennial grasses.

**TIMING**

To control most weeds for an extended period of time and non-cropland areas such as railroad, highway, and pipeline rights-of-way, petroleum tank farms, lumberyards, storage areas, and industrial plant sites, for best results, apply in use solution when weeds are less than six inches high. Do not apply when ground is frozen.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, and ragweed, mix one part with nine parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

For perennial weeds and grasses such as bluegrass, redtop, purpletop, aster, dandelion, and goldenrod, mix one part with four parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

For Johnson grass and other hard-to-kill perennial weeds and grasses such as Bermuda grass, Dallis grass, nutgrass, saltgrass, and horsetail, mix one part with two parts water and apply with a sprayer at the rate of one gallon per 100 square feet.

Dilutions with water form an emulsion. It should be stirred thoroughly before use. If the emulsion stands for any length of time before use, it should be restirred.

For faster kill of established weeds and grasses, dilute with kerosene, mineral spirits, or fuel oil in the same quantities as called for above for water.

**WARRANTY STATEMENT**

This product is designed exclusively for industrial and institutional use by trained professional maintenance personnel. Prior to using this material, read complete label and Material Safety Data Sheet on file at your place of work. Label directions and precautions must be followed exactly. Selig Chemical Industries will not be responsible for injury, loss, or damage if product is used in any manner not in compliance with label directions or if precautions are not observed.
