NO-VEX *Residual - A* INSECTICIDE

DIRECTIONS

For the control of cockroaches, waterbugs, and silverfish apply with a sprayer to the hiding places or harbourages of the insect and to the surfaces over which the insects crawl and crevices around baseboards, and doorframes, under sinks, behind and under stoves, cabinets and refrigerators and where pipes pass through the wall or floor. When treating for "waterbugs" or Oriental cockroaches always treat the suspected basement areas and any possible "runs" from the basement to other parts of the building.

For silverfish apply to the hiding places.

For control of ants, spray the surfaces over which the ants crawl and into any cracks from which they come. If it is possible to locate the ant nest itself, apply directly to the nest.

Repeat all applications as necessary.

Active Ingredients	100%
Technical Chlordane*	2.000%
N-octyl bicycloheptene dicarboximide060%
Technical piperonyl butoxide**036%
Pyrethrins018%
Petroleum distillates	97.886%

*Equivalent to 1.2% octachloro-4-7-methanotetrahydroindane and 0.8% related active compounds.

**Equivalent to 0.0288% of (butylcarbityl) (6-propylpiperonyl) ether and 0.0072% of related compounds.
