ROACH & BUG KILLER INSECTICIDE

FORMULATED FOR HOSPITAL . SCHOOL . HOTEL . MOTEL . HOME . OFFICE . RESTAURANT . LOCKER AND REST ROOM . FACTORY . INSTITUTION .

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful if swallowed. Kepp out of reach of children. Avoid prolonged inhalation. Avoid repeated contact with skin as this may cause contact sensitization in susceptible individuals. If sensitization reactions result, consult a physician. Wash thoroughly after using.

Do not use on household pets or humans. Do not allow children or pets onto a treated area until the spray has dried.

When used indoors, open windows and/or doors after application to provide fresh air ventilation to the rooms.

When used outdoors, spray with the wind to your back.

If clothing becomes wet from spray during indoor/outdoor application, remove clothing after spraying, wash affected body areas thoroughly with soap and water and launder clothing before wearing.

Avoid contamination of feed and foodstuffs. Keep container tightly closed.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas includes those where prepared food are served such as dining rooms but excludes areas where foods maybe prepared or held.

In the home, all food processing surfaces and utensiiis should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

In hospitals do not use in occupied patients' rooms because of cholinesterase inhibition mode of action of Diazinon.

In schools do not apply this pesticide when classroom are in use.

ENVIRONMENTAL HAZARDS

This pesticide is highly to toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

PHYSICAL & CHEMICAL HAZARDS

Flammable. Contents under presure. Do not use or store near heat or open flame or where temperature exceeds 130°F. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove protective cap. Hold dispenser 3 to 6 inches from surface. Aim nozzle at infested area and press valve to release spray. Move across surface at rate of 1 or 2 ft. per second, leaving wet coating. Spray baseboards, cracks storage areas, other hiding places. Spray ant trails, areas around door sills and window frames, also damp spots and wall openings. Repeat as needed. For Surface Use Only. Do Not Spray into the Air

ROACHES, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

CARPET BEETLES: Make localized application to areas of the floor and baseboard. Spray directly into cracks, and under carpets where insects may be found. Treat crevices, cracks, or closets and infested areas of shelvings. Repeat as necessary.

BROWN DOG TICKS: Thoroughly spray infested areas around baseboards, windows and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Application should be repeated as infestations warrant, and re-infestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

FLIES, MOSQUITOES, WASPS AND FLYING MOTHS OUTDOORS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screen, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

FLEAS, CHIGGERS, ANTS AND BROWN DOG TICKS OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as re-infestations occur.

Asphalt tile, some linoleum, certain plastic materials and wall papers may tend to discolor, streak or soften when wet with insecticides. Test on small inconspicuous area before spraying or wetting such materials.

STORAGE: Store in a cool, dry area away from heat or open flame.  
DISPOSAL: Replace cap and discard container in trash. Do not incinerate or puncture.
