Chase Products Co.  
Transmittal: laura.radevski@chaseproducts.com

Subject: Label Amendment – Add “Virus” to several listed viruses  
Product Name: SPRAYPAK FOAMING CLEANER DISINFECTANT &  
DEODORIZER  
EPA Registration Number: 498-62  
Received Date: May 25, 2022  
Action Case Number: 00365271

Dear Laura E. Radevski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

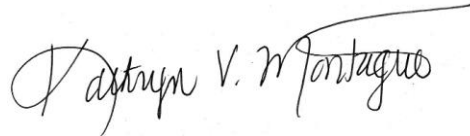

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

Page 2 of 2  
EPA Reg. No. 498-62  
Action Case Number 00365271

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Joe Daniels via email at [daniels.joseph@epa.gov](mailto:daniels.joseph@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "Kathryn V. Montague". The signature is written in a cursive style with a long, sweeping horizontal line extending from the end of the name.

**FOAMING CLEANER**

**DISINFECTANT & DEODORIZER  
CLEANS - DISINFECTS - DEODORIZES  
POLISHES AS IT CLEANS**

Cleans and deodorizes all hard, nonporous, non-food contact, washable household surfaces such as bathtubs, sinks, toilet seats and exterior bowl surfaces, shower stalls, plastic and ceramic tile, chrome, stainless steel, baked enamel, plastic countertops, painted walls and woodwork, vinyl and leather. No scrubbing. No rinsing. Non-abrasive.

*\*\*This product is a germicidal that kills Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, Escherichia coli, Campylobacter jejuni and Salmonella schottmuelleri.*

***\*Kills Rhinovirus Type 39 – the leading cause of the common cold.***

Kills viruses and fungi on hard, nonporous inanimate surfaces. **\*Viruses:** SARS-CoV-2 Virus (COVID-19 Virus), strain USA-WA 1/2020, (2019-Novel coronavirus), Rhinovirus Type 39, Influenza A virus H2N2, strain A/Japan/305/57; ATCC VR-100, Influenza B virus (Hong Kong); ATCC VR-823, Herpes Simplex virus Type 1 and Herpes Simplex virus Type 2 and Respiratory Syncytial virus. **\*Fungi:** Trichophyton interdigitale (athlete's foot).

Removes mold and mildew stains and odors.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

Kills HIV-1 (AIDS VIRUS) on precleaned environmental surfaces/objects previously soiled with blood and body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST**

## **HIV OF SURFACES/OBJECTS SOILED WITH BLOOD AND BODY FLUIDS.**

**PERSONAL PROTECTION:** When handling items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks and eye coverings.

**CLEANING PROCEDURE:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

**DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids must be autoclaved and disposed of according to Federal, state and local regulations for infectious waste disposal.

**CONTACT TIME:** Treated surface must remain visibly wet for 10 minutes.

After surface is cleaned, hold can upright and spray 6 to 8 inches from surface to be treated until surface becomes wet. Treated surfaces must remain visibly wet for 10 minutes. Then allow surface to air dry or wipe with a clean cloth or paper towel.

### **DIRECTIONS TO CLEAN & DISINFECT**

#### **SHAKE WELL BEFORE USING:**

1. Hold can 8 to 10 inches from surface; spray a light coating of foam over area to be cleaned.
2. Allow foam to remain visibly wet for 10 minutes.
3. Wipe surface clean with a damp cloth or sponge. On stubborn spots, allow foam to stand longer.

**DIRECTIONS TO REMOVE MOLD & MILDEW STAINS AND ODORS:** Hold dispenser upright and spray 6 to 8 inches from surface until surface is covered with foam. Allow foam to remain visibly wet on the surface for 10 minutes before wiping off. Repeat application when new growth appears.

### **OTHER SUGGESTED USES**

Effective for cleaning and deodorizing refrigerators, freezers and garbage cans. Excellent for cleaning and disinfecting bedpans, wastebaskets and diaper pails in hospitals, nurseries, rest homes and sickrooms.

### **STORAGE & DISPOSAL**

**STORAGE:** Store in a cool, dry area away from heat or open flame.

**DISPOSAL:** Do not reuse empty container. This container may be recycled in one of the limited number of aerosol recycling centers in the country. Before recycling, empty the can by using the product according to the label. **DO NOT PUNCTURE!** If recycling is not available, wrap the container and discard in the trash.

### **PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS**

## CAUTION

Do not spray in eyes. In case of contact, flush thoroughly with water. If irritation persists, get medical attention. Avoid spraying on food.

## FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

## PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. DO NOT PUNCTURE OR INCINERATE CONTAINER. Exposure to temperatures above 130°F may cause bursting.

Use only as directed. Intentional misuse by deliberately concentrating and inhaling aerosol products can be harmful or fatal.

**THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.**

**(MEDICAL INFORMATION -- MANDATORY ON CHASE PRODUCTS,  
OPTIONAL ON OTHER LABELS.**

**MEDICAL SUPPORT ORGANIZATION MAY DIFFER.**

APPENDIX A

[EMERGING PATHOGEN CLAIM LANGUAGE

This product qualifies for emerging viral pathogen claims per the EPA’s “Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels” when used in accordance with the appropriate use directions indicated below

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category:

Enveloped Viruses For an emerging viral pathogen that is an	follow the directions for use for the following organisms on the label:
Enveloped virus	Rhinovirus Type 39, (ATCC VR-340), Strain 209

SprayPak Foaming Cleaner Disinfectant & Deodorizer has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, SprayPak Foaming Cleaner Disinfectant & Deodorizer can be used against [name of emerging virus] when used in accordance with the directions for use against Rhinovirus Type 39 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

Or

[Name of illness/outbreak] is caused by [name of emerging virus].  
SprayPak Foaming Cleaner Disinfectant & Deodorizer kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with directions for use against Rhinovirus Type 39 on hard, non-porous surfaces. Refer to [CDC or OIE] website at [pathogen-specific website address] for additional information.

(NOTE: Per the Emerging Viral Pathogen (EVP) guidance and terms of registration, these claims should only be communicated **off-label** in the event of an outbreak, for the duration permitted.)
