BACK PANEL COPY

Del's De-Lousing Spray is a specially formulated insecticide that is specifically designed for use in penal institutions, hospital emergency rooms, and has successfully been used by Police Departments. This is a unique formulation for the control and killing of crab lice, body lice and nits. Kills unattached chiggers on contact. Safe for use on most clothing except synthetic fabrics.

Directions

For external use only

Crabs: Spray affected parts and allow to dry. Wait fifteen minutes and then wash with warm water and soap. To remove lice and nits, use fine comb.

Body Lice: Treat as for crab lice. Because body lice are in clothing, thoroughly spray with Del's De-Lousing Spray.

Head Lice and Nits: Spray on scalp and hair. Rub in with fingers. Allow to dry. One thorough application is usually effective. However, repeating two or three times within two days will aid in quicker riddance.

Chiggers ( unattached) : Spray affected areas thoroughly. Allow to dry. Wash with warm water and soap.

CAUTION: Wash head or affected areas with soap and water prior to application. Do not spray in area of eyes, nose, ears, or mouth. If these areas are affected, spray liberally on a clean, sterile cotton pad and carefully apply to these areas. Avoid contact of Del's De-Lousing Spray with eyes. If sprayed directly into eyes, wash with water; if irritation persists consult a Physician. Do not puncture container or dispose of same in fire or incinerator. Container should not be stored in direct sunlight or where temperature exceeds 120° F. Do not wet varnished, painted or plastic surfaces with this spray.

KEEP OUT OF REACH OF CHILDREN

ACTIVE INGREDIENTS: 35.00%

Pyrethrins	0.20%
* Technical Piperonyl Butoxide	2.00
Isopropyl Alcohol	2.00
