MINI INTERNATIONAL
FORMULA

[498-98]

DOUBLE

Action

INSECT
KILLER

498-98

KILLS: Houseflies, mosquitoes, gnats, wasps, roaches, earwigs, grain mites, sowbugs, spiders, centipedes, ants, biting flies, aphids (plant lice), leafhoppers, exposed thrips, adult whiteflies, plant bugs, Japanese beetles, spittlebugs.

FOR USE IN HOMES, MOTELS, INSTITUTIONS, RESTAURANTS

CAUTION

KEEP OUT OF REACH OF CHILDREN
CONTENTS UNDER PRESSURE
Read precautions on back of can.

NET WT. 18 OZ. (1 LB. 2 OZ.)

DOUBLE ACTION INSECT KILLER: To kill a wide variety of flying and crawling insects, as well as a residual insecticide which remains active for 3 to 4 weeks. Control of roaches.

DIRECTIONS FOR USE

Shake well before each use. Remove protective cap. Apply to insects by spraying or by direct contact.

HOUSEFLIES, MOSQUITOES AND GNATS

Indoors: Close all doors and windows. Spray up and down the spray. Spray directly on insects, especially gnats and mosquitoes. When spraying, hold the nozzle about 12 to 18 inches from the insect. Do not leave the treated area. Keep the insect dead for at least 24 hours. Repeat the treatment as needed.

TO REDUCE ANNOYANCE FROM FLYING INSECTS

Outdoors: Reduce mosquitoes, gnats and other biting flies and flying insects by spraying their resting areas. Follow procedure listed above. Hold container 12 to 24 inches from bushes, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of 1 to 3 seconds per cubic foot of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. A low spray to dissipate before occupying the treated area. Repeat as necessary.

ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, SPIDERS AND CENTIPEDES:

Contact Spray: Spray thoroughly into hiding places such as cracks, crevices, moist areas, cupboards around pipes and sinks, under ceiling, floor, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, SPIDERS AND CENTIPEDES:

Residual Spray: Spray baseboards, cracks and crevices, around door and window frames, and other hiding places, such as closets, back of and under appliances, sinks and cupboards in the kitchen and bathroom. In basements, spray hiding places in cracks and crevices, lower walls, and dark places. Spray at the rate of 3 to 4 seconds per linear foot at a distance of 12 to 14 inches from the surface. Repeat as necessary.

WASPS: Applications should be made in the late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

ANTS: Apply to ant trails and around door sills, window frames and other places where ants may enter.

ORNAMENTAL PLANT PESTS: Spray aphids, exposed thrips, adult whiteflies, leafhoppers, plant bugs, spittlebugs, Japanese beetles, Japanese weevil larvae, and oakworm larvae. Direct spray on insects by holding the container 12 to 18 inches from the infested plants. Spray in short bursts of one to three seconds or spray at the rate of one linear foot of growth per second. Direct spray to all sides, covering foliage until slightly moist. Avoid heavy wetting. Repeat applications as necessary. **USE WITH CAUTION** on the foliage of Flowering Quince, Juniper, Cypress, Mahogany, Ash, Camellia, Rose, Camellia, Azalea, Pyracantha and Ceanothus, as certain varieties have shown some leaf-browning.

When infested, spray smaller evergreens, deciduous trees and shrubs as rhododendrons, pines, spruces, hemlock, yews, arbutus, junipers, holly, podocarpus, boxwood, magnolia, hickory, dogwood, palm tree, aralia, toyon, viburnum, oaks, maples, locust, forsythia, dillies and roses for control of aphids, and other pests listed above. Also spray infested flowering plants as plumbago, iris, zinnia, snapdragons, ageratum, chrysanthemums, nasturtium, daisy, geraniums, marigolds, daphne, fuchsia, ivy, hibiscus, queen canna, broadleaf acacia for the same listed pests.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Flammable if swallowed. Avoid contamination of food and feed. Do not use in areas where food is commercially prepared or prepared. Do not use in serving areas where food is served.

WARNING: Contents under pressure. Do not puncture. Do not expose container to temperatures above 120°F. Never throw container into fire or incinerator.
