OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

APR 21 2011

Ms. Laura Radevski
Chase Products Co.
P.O. Box 70
Maywood, IL 60153

Dear Ms. Radevski:

Subject: Application for Pesticide Notification (PRN 98-10)
Comply with Agency pyrethroid labeling letter dated June 4, 2009
SprayPak House & Deck Flying Insect Killer Formula 2
EPA Reg. No. 498-114
Your submission dated May 10, 2010

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated May 10, 2010 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions regarding this letter, please contact Dana Pilitt, PhD of my staff at (703) 305-7071 or via e-mail at pilitt.dana@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gebken".

Richard Gebken
Product Manager 10
Insecticide Branch
Registration Division (7505P)

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Read precautions on back of can.

BACK PANEL

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

PHYSICAL & CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. **DO NOT PUNCTURE OR INCINERATE CONTAINER.** Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Avoid contamination of food. Do not use in commercial food-processing or preparation areas. In the home, all food-processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying.

**SHAKE WELL BEFORE USE. HOLD CONTAINER UPRIGHT.
APPLY IN SHORT BURSTS.**

Remove all exposed food and cooking utensils. Cover all food-handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

OUTDOORS: All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

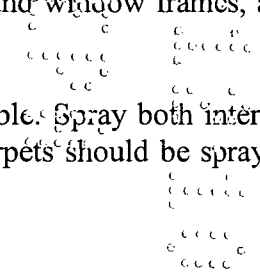

Spray area infested with these flying insects (**FLIES, GNATS, MOSQUITOES AND SMALL FLYING MOTHS**). Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Hold container 18-24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow, sweeping motion at a rate of 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these pests, treat open porches and patio in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.

GENERAL: When sprayed directly on insects, this spray will kill the insects listed (**EASTERN TENT CATERpillARS, APHIDS, CANKERWORMS, LEAFHOPPERS, WHITE FLIES, SPIDER MITES, JAPANESE BEETLES, MEALYBUGS, ANTS, CATERpillARS AND BOX ELDER BUGS**), on ornamental cherry, spirea, roses, crepe myrtle, ornamental crabapple, andromeda, azaleas, chrysanthemums, gardenias, purple passion vine, peonies, oleander and arborvitae. Caution should be taken when spraying tender growth on young plants. WHEN SPRAYING, HOLD CAN 18-20 INCHES FROM PLANT. For best results, spray in the evening or on a cloudy day when the air is still. Mist the plants lightly. Use a slow, sweeping motion. Avoid wetting foliage with spray. Spray rows at a rate of 1 foot per second. For heavy growth, spray both sides of row. Do not spray when temperature exceeds 90°F.

TO KILL FLIES, GNATS, MOSQUITOES AND SMALL FLYING MOTHS: Close all doors and windows and direct spray upward into center of room with a slow, sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Sweep up and destroy fallen insects. Before spraying, cover exposed food and utensils.

TO KILL ANTS, CENTIPEDES, COCKROACHES, CRICKETS, FIREBRATS, SOWBUGS AND SPIDERS: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry.

TO KILL CARPET BEETLES: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed

6096

thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected.

TO KILL EXPOSED FORMS OF CONFUSED FLOUR BEETLES, RICE WEEVILS AND SAW-TOOTHED GRAIN BEETLES: Find and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried.

TO KILL FLEAS AND TICKS IN PET BEDDING AND PET AREAS: Remove and destroy pet's old bedding. To reduce infestation, thoroughly spray the animal's bedding, sleeping quarters, around baseboards, window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Treat these areas at the rate of two seconds per linear foot at a distance of 12 to 18 inches. Also spray the entire inside surface of doghouses. Put fresh bedding in pet's quarters after spray has dried. **DO NOT SPRAY ANIMALS.** Also treat dogs and cats with a registered flea and tick control product before allowing them to reenter treated area.

TO TREAT FLEA AND TICK INFESTATION IN RUGS AND CARPETS: Spray rugs and carpets where fleas tend to hide. If used on light or delicate upholstery fabrics, test for potential staining in an inconspicuous place prior to use. Spray thoroughly into hiding places such as cracks and crevices in walls and floors, along baseboards, window and door frames. Spray at the rate of one square foot per second.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE.

If empty: Place in trash or offer for recycling if available.

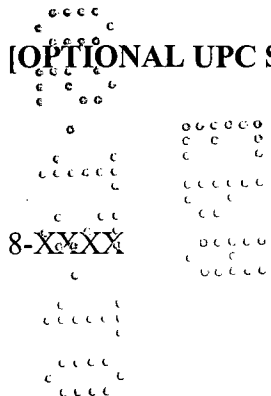

If partly filled: Call your local solid waste agency for disposal instructions.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.
