

 <p align="center">U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460</p>	EPA Registration No. 498-154	Date of Issuance: JAN 18 2008
	<p>NOTICE OF PESTICIDE: <input type="checkbox"/> Registration <input checked="" type="checkbox"/> Reregistration (under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</p>	
<p>Name and Address of Registrant (include ZIP Code): Chase Product Co. P.O. Box 70 Maywood Ill 60153</p>		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above provided that the following change is made to the label:</p>		
<p>1. Revise the following marketing claims:</p> <ol style="list-style-type: none"> Revise "Repels mosquitoes which may carry WEST NILE VIRUS" to: "Repels mosquitoes that may transmit West Nile Virus." Revise "Repels mosquitoes which may carry diseases such as ENCEPHALITIS and DENGUE" to: "Repels mosquitoes that may transmit Encephalitis and Dengue Fever." Revise "Repels deer ticks which may carry Lyme Disease" to: "Repels deer ticks which may transmit Lyme Disease" Revise "Repels mosquitoes, chiggers, ticks, biting flies, deerflies, stable flies, blackflies, gnats and fleas on exposed skin surfaces, deer ticks (vector Lyme disease)" to: "Repels mosquitoes, chiggers, ticks, biting flies, deerflies, stable flies, blackflies, gnats and fleas on exposed skin surfaces, and deer ticks (that may transmit Lyme disease)." 		

- 2. Within the Hazards to Humans section, revise as follows:
 - a. Remove the following statements: "Do not get in eyes. Instruct older children in the proper use of this product. Avoid contact with eyes, lips, cuts, excessively sunburned or damaged skin."¹
 - b. Add the following statement to the end: "Wash hands with soap and water after handling."

- 3. Within the Directions for Use section, revise as follows:
 - a. Directly below the FIFRA required statement "It is a violation of Federal law to use this product in a manner inconsistent with its labeling" insert the following statements:

For Outdoor Use Only. Do not spray in enclosed areas. Never use repellents over cuts, wounds, or irritated skin. Do not apply near eyes and mouth, and apply sparingly around ears. When using sprays, do not spray directly into face; spray on hands first and then apply to face. Do not allow children to handle this product, and do not apply to children's hands. When using on children, apply to your own hands and then put it on the child. Apply only to exposed skin and/or clothing (as directed on the product label). Do not use under clothing. Use just enough repellent to cover exposed skin and/or clothing. Heavy application and saturation is unnecessary for effectiveness; if biting insects do not respond to a thin film of repellent, apply a bit more. After returning indoors, wash treated skin with soap and water or bathe. This is particularly important when repellents are used repeatedly in a day or on consecutive days. Also, wash treated clothing before wearing it again. **Use of this product may cause skin reactions in rare cases. If you suspect a reaction to this product, discontinue use, wash treated skin, and call your local poison control center. If you go to a doctor, take this product with you.**

- b. Move all non-precautionary statements to a new section as follows:
 - "Application Instructions:**

To repel insects listed on the front panel, hold can at least 12 inches away. Point opening in desired direction towards skin and outer clothing surfaces, press top to spray. For chiggers, also apply to shoe tops, socks and around openings of clothing.

Do not apply to or near plastics, leather, acetate rayon, spandex or colored fabrics other than nylon. If applying to clothing, spray lightly. Avoid spraying on or near nail polish, watch crystals, eyeglass frames, furniture, and painted or varnished surfaces, including bicycles and automobiles. Excess spray drifting onto grass or foliage will cause discoloration, but will not otherwise damage the plant.

- 4. Revise the Storage and Disposal Section as follows:

"Storage and Disposal

Do Not Puncture or Incinerate

Pesticide Storage: Store in a cool dry place away from heat or open flame.

Pesticide Disposal: If empty: Place in trash or offer for recycling if available.

¹ Hazards to Humans statements are required when any toxicity studies result in a product classification of toxicity category I, II or III or when the dermal sensitization study result is positive.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.”

- 5. To be eligible for reregistration, aerosol and pump spray formulations must be packaged in containers utilizing a concave trigger to help aim product or other comparable mechanism that will ensure that the product will not be inadvertently sprayed in the eyes.
- 6. The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

You must submit two copies of the finished label revised in accordance with the comments listed above before the product is released for shipment under this label. If you have any questions, you may contact Carmen Rodia at (703)-306-0327 or rodia.carmen@epa.gov.

A copy of your label stamped "Accepted with Comments" is enclosed for your records.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may contact 1-800-XXX-XXXX for emergency information.

PHYSICAL OR CHEMICAL HAZARDS

EXTREMELY FLAMMABLE. Contents under pressure. Keep away from heat, sparks and open flame. **DO NOT PUNCTURE OR INCINERATE CONTAINER.** Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To repel insects listed on the front panel, hold can at least 12 inches away. Point opening in desired direction and press top to spray. **Do not spray in enclosed areas. Do not use under clothing. Use just enough repellent to cover exposed skin and/or clothing. Avoid overexposure. Frequent reapplication and saturation are unnecessary for effectiveness.** For chiggers, also apply to shoe

tops, socks and around openings of clothing.

After returning indoors, wash treated skin with soap and water. Wash treated clothing.

Do not apply over cuts, wounds or irritated skin. Do not spray directly on face. To apply to face, spray into hands and rub on. Do not apply near eyes or mouth. Apply sparingly around ears. **Do not use on children under 2 years old.** Do not apply to children's hands. Do not allow children to handle this product. When using on children, apply to your own hands and then put it on the child. Use of this product may cause skin reactions in rare cases. If you suspect that you or your child is reacting to this product, discontinue use, wash treated skin and call your local poison control center. If you go to a doctor, take this repellent with you.

Do not apply to or near plastics, leather, acetate rayon, spandex or colored fabrics other than nylon. If applying to clothing, spray lightly. Avoid spraying on or near nail polish, watch crystals, eyeglass frames, furniture, and painted or varnished surfaces, including bicycles and automobiles. Excess spray drifting onto grass or foliage will cause discoloration, but will not otherwise damage the plant.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry place away from heat or open flame. Do not contaminate water, food or feed by the use, storage or disposal of this product.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.
