Chase Products Company
P.O. Box 70
Maywood, Illinois 60153

Label Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 498-158".
 - b. Add an "Environmental Hazards" section to the label, stating: "This product is toxic to fish, birds, and other wildlife. Do not apply directly to water. Use only as directed."
 - c. In the statement; "When using outdoors, do not spray vegetation," delete the phrase: "When using outdoors."

Signature of Approving Official:

DENNIS H. EDWARDS

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch
Registration Division (7505C)

Date:

**FOR USE AROUND HOSPITALS . SCHOOLS . HOTELS . MOTELS . OFFICES .
RESTAURANTS . FACTORIES . INSTITUTIONS .**

Wasp Long Range Jet Spray kills Wasps, Hornets, Bees, Spiders, Crickets, Ants, Clover Mites, Earwigs, Fleas, Millipedes, Sowbugs, Brown Dog Ticks. Shoots a lethal spray into nests, crevices, holes from up to 18 feet away. Kills with residual action.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
C A U T I O N**

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes or clothing should be avoided. Wash thoroughly with soap and warm water after handling. If poisoning occurs, get prompt medical aid. Avoid contamination of fish ponds. Remove pets from area before spraying.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Do not induce vomiting because of aspiration pneumonia hazard.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

TO PHYSICIAN: Atropine sulfate is antidotal.

PHYSICAL & CHEMICAL HAZARDS

FLAMMABLE: Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Remove protective cap from top of can. Hold upright, point opening in valve in desired direction for spray. To release spray, press valve downward or push valve forward.

FOR OUTDOOR USE: Hornets, Yellow Jackets, Wasps, Bees. Aim valve at nest where insects are known to be inside. Press valve all the way down until the area is saturated with spray. Repeat as necessary. Apply after dark when all of the insects have returned to the nest. The treated surface will have a residual killing action and prevent reinfestation for weeks. In the event the insecticide film becomes ineffective due to rain and other causes, repeat treatment.

Ants: Spray hills and runways. Repeat as necessary.

Spiders, Clover Mites, Crickets, Earwigs, Fleas, Millipedes, Sowbugs, Brown Dog Ticks. Spray infested areas thoroughly including outside surfaces of screen frames, doors, window frames, foundations, patios or other places where insects may enter and harbour. Repeat as necessary.

(~~When using outdoors,~~ do not spray vegetation.

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash.
