BACK PANEL

SprayPak Wasp Long Range Jet Spray, Formula 2, shoots a lethal spray into nests, crevices, holes from up to 20 feet away. Kills with residual action. Insect-Killing power lasts for weeks.

SPRAY ONLY ON SURFACES. DO NOT USE AS A SPACE SPRAY.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

C A U T I O N

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly after using.

Do not contaminate feed or food. Keep out of reach of children.

Wash hands, arms and face thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse.

STATEMENTS OF PRACTICAL TREATMENT

In case of poisoning, call a physician immediately. Have patient lie down and keep quiet.

If on skin, wash immediately with soap and warm water. If irritation occurs, get medical attention.

If in eyes, wash with plenty of water. Get medical attention.

If inhaled, remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

If swallowed, call a physician or Poison Control Center. Do not induce vomiting. Vomiting may cause an aspiration hazard.

**SYMPTOMS OF POISONING:** A sense of "tightness" in chest, sweating, contracted pupils, stomach pains, vomiting and diarrhea.

NOTE TO PHYSICIAN

**ANTIDOTE** - Administer Atropine Sulfate in therapeutic doses. Repeat as necessary to the point of tolerance.

Compound inhibits cholinesterase resulting in stimulation of the central nervous system, the parasympathetic nervous system and the somatic motor nerves. Do not give morphine. Watch for pulmonary edema which may develop in serious cases of poisoning even after 12 hours. At first sign of pulmonary edema, the patient should be placed in an oxygen tent and treated symptomatically.

### PHYSICAL AND CHEMICAL HAZARDS

Flammable contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**IMPORTANT:** Read these entire Directions and Conditions of Sale before using this product.

**CONDITIONS OF SALE:** THE DIRECTIONS ON THIS LABEL WERE DETERMINED THROUGH RESEARCH TO BE THE DIRECTIONS FOR CORRECT USE OF THIS PRODUCT. THIS PRODUCT HAS BEEN TESTED FOR A RANGE OF WEATHER CONDITIONS SIMILAR TO THOSE WEATHER CONDITIONS THAT ARE ORDINARY AND CUSTOMARY IN THE GEOGRAPHIC AREA WHERE THE PRODUCT IS USED. INSUFFICIENT CONTROL OF PESTS AND/OR INJURY TO THE CROP TO WHICH THE PRODUCT IS APPLIED MAY RESULT FROM THE OCCURRENCE OF EXTRAORDINARY OR UNUSUAL WEATHER, OR FROM FAILURE TO FOLLOW LABEL DIRECTIONS. IN ADDITION, FAILURE TO FOLLOW LABEL DIRECTIONS MAY CAUSE INJURY TO OTHER CROPS, ANIMALS, MAN, OR THE ENVIRONMENT. CHASE PRODUCTS OFFERS, AND THE BUYER ACCEPTS AND USES THIS PRODUCT SUBJECT TO THE CONDITIONS THAT EXTRAORDINARY OR UNUSUAL WEATHER, OR FAILURE TO FOLLOW LABEL DIRECTIONS ARE BEYOND THE CONTROL OF CHASE PRODUCTS AND ARE, THEREFORE, THE RESPONSIBILITY OF THE BUYER.

SprayPak Wasp Long Range Jet Spray, Formula 2, is a highly effective formulation which provides rapid kill of such crawling insects as listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides:

- |              |                    |                |
|--------------|--------------------|----------------|
| Ants         | Hornets            | Scorpions      |
| Bees         | Millipedes         | Silverfish     |
| Clover Mites | Mosquitoes         | Sowbugs        |
| Crickets     | Roaches            | Spiders        |
| Earwigs      | Saw-toothed grain- | Wasps          |
| Fleas        | beetle (exposed    | Yellow Jackets |
| Flies        | stage)             |                |

In addition to rapid initial kill, this product stays on treated surfaces and kills insects many weeks after the spray deposit has dried.

**HOW TO USE:** Unlike most pressurized residual sprays, SprayPak Wasp Long Range Jet Spray, Formula 2, shoots a lethal stream of spray allowing the user to direct the spray to a distance of up to 20 feet. Cracks, crevices, and hard-to-reach locations can be reached without bending, crawling, or climbing. Spray infested surfaces until wet, moving the spray stream rapidly to prevent excessive wetting of surfaces, and waste of material.

**OUTDOOR USE:** ANTS, CLOVER MITES, CRICKETS, EARWIGS, FLEAS, FLIES, HORNETS, MILLIPEDES, MOSQUITOES, SOWBUGS, WASPS, BEES, YELLOW JACKETS AND BROWN DOG TICKS: Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios, or other places where insects may enter. For ants, spray runways. For control of wasps and hornets apply after dark when all of the insects have returned to the nest. Repeat as necessary. Do not spray vegetation.

#### STORAGE AND DISPOSAL

**STORAGE:** Do not store near heat or open flame. Store in a cool, dry place and out of the reach of children, preferably in a locked storage area.

**DISPOSAL:** Replace cap. Securely wrap original container in several layers of newspaper and discard in trash. Do not incinerate or puncture.
