OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Ms. Laure E. Radevski Chase Products Co. P.O. Box 70 Maywood, IL 60153

Subject:

Amended Reregistration Label

Champion Spray-On Flying & Crawling Insect Killer Formula II

EPA Registration No. 498-192 EPA Decision Number(s) 425003

Dear Ms. Radevski;

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the referenced product in connection with the Allethrin RED, and has concluded that your submission is acceptable.

PLEASE NOTE: This product is not being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

PLEASE NOTE: That the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSF's are superseded.

- Basic CSF, dated: August 24, 2010
- Alternate CSF's #1, 2, 3, 4, and 5, dated: August 24, 2010

A copy of your label stamped "Acceptable" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

If you have any questions about this letter, please contact Regina Foushee-Smith at (703) 605-0780 or via e-mail at foushee-smith.regina@epa.gov.

Sincerely Yours,

Richard Gebken Product Manager 10

CHAMPION SPRAYON FLYING & CRAWLING INSECT KILLER FORMULA II

For Household and Domestic Use

- · Contains Deltamethrin and S-bioallethrin
- Improved Water-Based Formula
- · Water-Based
- · Killing Action and Residual Control
- Fast Knockdown Formula
- · Long-Lasting Control
- · For Indoor/Outdoor Use
- · Kills Fleas-Roaches-Ants-Spiders
- Kills On Contact
- Kills Hidden Bugs
- Kills Bugs You See and Even the Ones You Don't See
- Broad Spectrum Insect Control
- Highly Effective Against Ants, Bees, Carpenter Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Firebrats, Fleas, Flour Beetles, Grain Beetles, Ground Beetles, Mole Crickets, Moths, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders, Ticks and Many Other Crawling Insects In and Around Homes, Recreational Vehicles, Cabins, Tents and other Recreational Structures. Not for use on plants grown for sale or other commercial use.
- · No Oily Residue No Unpleasant Odor
- No Greasy Residue Non-Staining
- · Won't Stain Carpets and Floors
- Frotects For up To 4 Weeks
- Keeps on Killing for up to 4 Weeks
- · Keeps on Killing
- Contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFS propellants in aerosols.

ACTIVE INGREDIENT:

S-bioallethrin	0.05%
Deltamethrin	0.02%
OTHER INGREDIENTS:	99.93%
Total 10	0.00%

KEEP OUT OF REACH OF CHILDREN CAUTION

Read precautionary statements on back of can.

ACCEPTED

4-10-12

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under 198-192 EPA Reg. No. 198-192 **BACK PANEL**

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water or to are as where surface water is present or to intertidal areas below the mean water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this

product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS

Surface spray uses are limited to **indoor** spot treatments only. Broadcast surface applications are prohibited.

Do not allow adults, children, or pets to enter treated area until sprays have dried.

Remove pets, birds and cover fish aquariums before spraying.

Outdoor uses are limited to spot treatment only. Broadcast applications are prohibited.

Do not water the treated are to the point of runoff.

Do not make applications during rain.

Do not apply this product in a way that will contact adults, children, or pets either directly or through drift.

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter drain during or after application.

This product works in two ways: 1) it kills bugs fast on contact; and 2) its residual action keeps on killing for up to 4 weeks after you spray. Contact kill gives you immediate results when spraying insects directly, while residual activity kills insects when they return to treated areas.

SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces only. Remove protective cap and direct spray away from face. Hold can 12-15 inches from surface being sprayed. Press button down and spray as directed. Spray surface until slightly wet.

This product will not stain surfaces or fabrics where water alone causes no damage.

This insecticide is intended for use in and around residential structures and their immediate surroundings. Permitted areas of use include: apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms solariums, storage areas, sun rooms, utility rooms and verandahs.

INDOORS:

Cockroaches: (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), ants, booklice, boxelder bugs, centipedes, crickets, dermestids, filrebrats, fleas palmetto bugs, silverfish, sowbugs, ticks and waterbugs. Apply as a spot and crack and crevice treatment to areas where these pests crawl and hide, especially in cracks and crevices, and hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves,

drawers, bookcases, and similar areas. When pests are driven out, spray directly. Repeat as necessary but not more than once per month.

Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be cover or removed.

Roaches: Spray in cracks and crevices, around baseboards and other hiding places until wet. When driven out, spray bugs directly.

Ants: Spray around ant trails, doors and windows and other places where ants enter the house. Repeat as necessary but not more than once per month.

Carpenter Ants: For effective control, locate and treat nests and surrounding areas. At ply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

Ticks and Fleas on Surfaces: Remove pet bedding and destroy or clean thoroughly Spray pet resting quarters. Adult fleas and larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining on an inconspicuous area prior to use.

Spiders: Apply along and behind baseboards to window and door frames, corners, pit es, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

Silverfish, Crickets, Spiders: Apply along and behind baseboards to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

Apply to areas infested by these pests or spray pests directly. Spray surfaces until wet.

Pantry Pests - Grain Beetles (Rusty, Merchant and Saw-toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles and Tobacco Moths: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

Carpet Beetles (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

<u>6</u>7

Webbing Clothes Moths: Use this product as a crack and crevice treatment in closet; and other storage areas where the pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

OUTDOORS:

Point nozzle away from face. Hold can on a slight downward angle, approximately 17-15 inches from surface to be sprayed. For best results, spray when air is calm. Spray with wind f breeze is blowing. Do not contaminate fishponds or apply directly to water.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation to ants, clover mites, crickets and sowbugs (pillbugs). Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary but no more than once per month.

CRAWLING INSECTS: ants, cockroaches (including Asian cockroaches), centipedes, crickets, mole crickets and silverfish. Spray infested surface of patio or picnic area, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

Ants: Spray around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris. Repeat as necessary but not more than once per month.

Fire Ants: To quiet active ants on the surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours Treat new mounds as they appear.

Lone Star Ticks, Dog Ticks, Crickets, Fleas and Earwigs: Apply thoroughly to in estation in bushes, grass or weeds.

Wasps, Mud Daubers, Hornets and Bees: Spray nests and bees directly. Aim spray at nest openings. Applications should be made late in the evening when insects are at rest.

FLYING INSECTS: Houseflies, gnats, mosquitoes and small flying moths: Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to res on treated surfaces will be killed.

FOR THE CONTROL OF ORNAMENTAL GARDEN INSECTS: For use on roses, dal lias, asters and other ornamentals to kill Japanese beetles hit by spray, as well as whiteflies, applies, army worms, lace bugs, mealy bugs, exposed thrips, pavement ants, spiders, red mites, clover mites and leafminers.

May be used on plants, as well as multi-purpose spray in small ornamental gardens and for spot

treatments of incipient insect infestations to prevent spreading in large garden areas.

May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, sr apdragons, stocks, wandering Jews and zinnias.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Spray insects directly whenever possible. Repeat treatment as necessary but not more than once per month.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not store near heat or open flame. Store in a cool, dry a ea away from children.

DISPOSAL AND CONTAINER HANDLING: Do not puncture or incinerate! If empty: Place in trash or offer for offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.
