UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

APR 28 2011

Ms. Laura Radevski
Chase Products Co.
P.O. Box 70
Maywood, IL 60153

Dear Ms. Radevski:

Subject: Application for Pesticide Notification (PRN 98-10)
Comply with Agency pyrethroid labeling letter dated June 4, 2009
Champion SprayOn Flying & Crawling Insect Killer Formula I
EPA Reg. No. 498-193
Your submission dated May 10, 2010

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated May 10, 2010 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions regarding this letter, please contact Dana Pilitt, PhD of my staff at (703) 305-7071 or via e-mail at pilitt.dana@epa.gov.

Sincerely,

Richard Gebken
Product Manager 10
Insecticide Branch
Registration Division (7505P)

Please read instructions on reverse before completing form.

Form Approved, OMB No. 2070-0060

CHAMPION SPRAYON

FLYING & CRAWLING INSECT KILLER FORMULA I

For Household and Domestic Use Only

- Contains DeltaGard™ Insecticide
- Contains Deltamethrin
- Improved Water-Based Formula
- Water-Based
- Killing Action and Residual Control
- Long-Lasting Formula
- For Indoor/Outdoor Use
- Kills Fleas-Roaches-Ants-Spiders
- Kills On Contact
- Kills Hidden Bugs
- Kills Bugs You See and Even the Ones You Don't See
- Broad-Spectrum Insect Control
- Highly effective against ants, bees, carpenter ants, carpet beetles, centipedes, cockroaches, crickets, firebrats, fleas, flour beetles, grain beetles, ground beetles, mole crickets, moths, pill bugs, scorpions, silverfish, sow bugs, spiders, ticks and many other crawling insects, in and around homes, recreational vehicles, cabins, tents and other recreational structures. Not for use on plants grown for sale or other commercial use.
- No Oily Residue – No Unpleasant Odor
- No Greasy Residue – Nonstaining
- Won't Stain Carpets and Floors
- Protects for up to 4 weeks
- Keeps on killing for up to 4 weeks
- Keeps on Killing
- Contains no CFCs or other ozone-depleting substances. Federal regulations prohibit CFC propellants in aerosols.

KEEP OUT OF REACH OF CHILDREN
CAUTION

Read precautionary statements on back of can.

BACK PANEL

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Remove pets, birds and cover fish aquariums before spraying.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks and open flame. DO NOT PUNCTURE OR INCINERATE CONTAINER. Exposure to temperatures above 130°F

may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product has residual action which keeps on killing for up to 4 weeks after you spray.

SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces only. [Remove protective cap and]direct spray away from face. Hold can 12-15 inches from surface being sprayed. Press button down and spray as directed. Spray surface until slightly wet.

This product will not stain surfaces or fabrics where water alone causes no damage.

This insecticide is intended for use in and around residential structures and their immediate surroundings. Permitted areas of use include apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms and verandahs.

INDOORS:

COCKROACHES: (including adult and immature stages of both non-resistant and organophosphate- and carbamate-resistant strains), **ANTS, BOOK LICE, BOXELDER BUGS, CENTIPEDES, CRICKETS, DERMESTIDS, FIREBRATS, FLEAS, PALMETTO BUGS, SILVERFISH, SOW BUGS, TICKS and WATER BUGS.** Apply as a spot and crack and crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. When pests are driven out, spray directly. Repeat as necessary, but not more than once per month.

Cover all food-handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be cover or removed.

ROACHES: Spray in cracks and crevices, around baseboards and other hiding places until wet. When driven out, spray bugs directly.

ANTS: Spray around ant trails, doors and windows, and other places where ants enter the house. Repeat as necessary, but not more than once per month.

CARPENTER ANTS: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises, and where they crawl and hide. Spray into infested wood through existing openings.

TICKS and FLEAS on surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Adult fleas and larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Test first for staining on an inconspicuous piece prior to use.

SPIDERS: Apply along and behind baseboards to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

CENTIPEDES, GROUND BEETLES, PILL BUGS, SOW BUGS, SCORPIONS and TICKS: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

SILVERFISH, CRICKETS, SPIDERS: Apply along and behind baseboards to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl. Apply to areas infested by these pests or spray pests directly. Spray surfaces until wet.

PANTRY PESTS – GRAIN BEETLES (RUSTY, MERCHANT and SAW-TOOTHED), FLOUR BEETLES (RED and CONFUSED), CHOCOLATE MOTHS, CIGARETTE BEETLES, CLOVER MITES, CLUSTER FLIES, DRUGSTORE BEETLES, ELMLEAF BEETLES, RICE WEEVILS, LESSER GRAIN BORERS, SPIDER BEETLES and TOBACCO MOTHS: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Wash any exposed food-handling surfaces and utensils before use.

CARPET BEETLES (BLACK, FURNITURE and VARIED): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

WEBBING CLOTHES MOTHS: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

OUTDOORS: All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation around structures;
- (2) Applications to lawns, turf and other vegetation;
- (3) Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as

windows, doors and eaves) are limited to spot and crack-and-crevice applications only.

Point nozzle away from face. Hold can on a slight downward angle, approximately 12-15 inches from surface to be sprayed. For best results, spray when air is calm. Spray with wind if breeze is blowing. Do not contaminate fish ponds or apply directly to water.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation to **ANTS, CLOVER MITES, CRICKETS AND SOW BUGS (PILL BUGS)**. Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary, but no more than once per month.

CRAWLING INSECTS: ANTS, COCKROACHES (including ASIAN COCKROACHES), CENTIPEDES, CRICKETS, MOLE CRICKETS and SILVERFISH. Spray infested surface of patio or picnic area, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

ANTS: Spray around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris. Repeat as necessary, but not more than once per month.

FIRE ANTS: To quiet active ants on the surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

LONE STAR TICKS, DOG TICKS, CRICKETS, FLEAS and EARWIGS: Apply thoroughly to infestation in bushes, grass or weeds.

WASPS, MUD DAUBERS, HORNETS and BEES: Spray nests and bees directly. Aim spray at nest openings. Applications should be made late in the evening when insects are at rest.

FLYING INSECTS: HOUSEFLIES, GNATS, MOSQUITOES and SMALL FLYING MOTHS: Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

FOR THE CONTROL OF ORNAMENTAL GARDEN INSECTS: For use on roses, dahlias, asters and other ornamentals to kill **JAPANESE BEETLES** hit by spray, as well as **WHITEFLIES, APHIDS, EXPOSED THRIPS, SPIDERS, RED MITES and LEAF MINERS.**

May be used on plants, as well as multi-purpose spray in small ornamental gardens and for

spot treatments of incipient insect infestations to prevent spreading in large garden areas.

May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grapevine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, snapdragons, stocks, wandering Jews and zinnias.

Effective when used as directed against **WHITEFLIES, APHIDS, SPIDER AND RED MITES, EXPOSED THRIPS, LACE BUGS, JAPANESE BEETLES, PAVEMENT ANTS, CLOVER MITES and ARMYWORMS.** When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one-second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Spray insects directly whenever possible. Repeat treatment as necessary, but not more than once per month.

STORAGE AND DISPOSAL

STORAGE: Do not store near heat or open flame. Store in a cool, dry area away from children.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.
