

FRONT PANEL

**CHAMPION SPRAYON
METERED
INSECTICIDE SPRAY**

- **HIGHLY CONCENTRATED FORMULA**
- **LASTS 28 DAYS OR MORE WHEN SPRAYED**
- AROUND THE CLOCK AT 15-MINUTE INTERVALS**

CONTROLS FLIES, MOSQUITOES, GNATS AND SMALL FLYING MOTHS

ACTIVE INGREDIENTS:

Pyrethrins	0.9%
*Piperonyl butoxide, technical	9.0%
**OTHER INGREDIENTS:	90.1%
Total	100.0%

*Equivalent to 7.2% (butylcarbityl) (6-propyl-piperonyl) ether and 1.8% related compounds.

**Contains Petroleum Distillates.

EPA Reg. No. 498-196

EPA Est. No. 498-IL-1

NET WT. XX OZ. (XXX g)

**CONTAINS NO CFCs OR OTHER
OZONE-DEPLETING SUBSTANCES
FEDERAL REGULATIONS
PROHIBIT CFC PROPELLANTS
IN AEROSOLS**

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See precautionary statements on back of can.

BACK PANEL

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if inhaled. Avoid breathing spray mist. Avoid contact with skin, eyes clothing. Remove contaminated clothing and wash before reuse. Do not use in nurseries or rooms where infants, ill or aged persons, or pets (particularly birds and fish) will be confined.

PHYSICAL & CHEMICAL HAZARDS

EXTREMELY FLAMMABLE: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not allow spray to contact plastic, painted or varnished surfaces.

FIRST AID

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is designed for use in an automatically timed dispensing cabinet. Use metered valve provided, which gives a dosage of 64 mg (0.0022 oz). The dispenser should be installed 7 ft above the floor, at least 3 ft from solvent-sensitive surfaces (plastic, painted or varnished surfaces) and 12 ft from any surface that may come in contact with food (including, but not limited to, countertops, appliances, equipment and utensils). In food-processing areas, the dispenser may be activated only

when the facility is not in operation. Foods must be removed or covered during treatment. All utensils, shelving, etc. where food will be handled should be covered or removed before treatment or thoroughly washed with an effective cleaning compound followed by a potable water rinse prior to use.

Controls *FLIES, MOSQUITOES, GNATS AND FLYING MOTHS* in an area of 6000 cubic feet (approximately 25x25x10 ft) in dairies, barns, canneries, breweries, manufacturing plants, restaurants, hospitals, stores, motels, schools and other public buildings. Factors such as shape of area, temperature, humidity, air currents and sanitary practices all affect insect activity and may modify the area protected.

TO USE: Following the instructions on the dispenser, insert the container and set it to discharge at 15 minute intervals, 24 hours a day or between specific hours. Sprayed around the clock at 15-minute intervals, this container will last for 28 days.

Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance. Do not install within 3 feet of air ducts. Do not use in public places while customers or workers are present. Timers in these places must be set to dispense only during nonbusiness hours.

If any insecticide remains in the can when it is scheduled for replacement, it may be dispensed manually. Spray directly at flies or other insects, pressing actuator button repeatedly, or use as a space spray. Close windows and doors and press actuator button 7 times per 1000 cubic feet of space. Keep can in motion, and pointed slightly upward to distribute the spray in the upper portion of the room.

Do not use in occupied rooms. All persons must be removed from rooms prior to treatment. Rooms should be ventilated for two hours after spraying. Do not allow persons to re-enter room until after ventilation.

STORAGE & DISPOSAL

GENERAL: Do not contaminate other materials (including water/food/feed) during transport, use, storage and disposal. If damaged or leaking, soak up and wrap any waste, then dispose of as below.

STORAGE: Keep in a cool, dry, locked area inaccessible to children and away from sources of heat and ignition (including flames, sparks, hot surfaces and sunlight.) Containers heated above 130° F (54° C) may burst.

DISPOSAL: Do not reuse empty container. This container may be recycled in one of the limited number of aerosol recycling centers in the country. Before recycling, empty the can by using the product according to the label. **DO NOT PUNCTURE!** If recycling is not available, wrap the container with newspaper and discard in the trash.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.
