Flushing and Contact Kill

FOR PROFESSIONAL USE ONLY... NOT FOR RESALE.

Whitmie No. 150 is a highly effective insecticide for use in food processing areas of food plants. It is a contact and flushing agent which kills insects on contact and flushes them from their hiding places. It is effective against a wide range of insects including flies, beetles, and other insects which are common in food processing areas. It is easy to use and does not leave a residue. It is available in a ready-to-use spray form.

**WARNING: Keep out of reach of children.
See side panel for additional cautions.**
