PT® 515 Wasp-Freeze®
Instant Wasp Killer

WASPS FREEZE IN PLACE AND FALL INSTANTLY FROM
THREE INSTANTANEOUS EFFECTS:

- 1. Quick Reduction in Body Temperature
- 2. Suffocation
- 3. Paralysis

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not stand directly under nest being treated as falling insects may fall onto skin or clothing.

Wasps & Hornets: With wind at back of user spray nest from a distance of 8 to 10 feet. Spray until all of nest and wasps are contacted.

Yellow Jackets and Bees: Spray with a sweeping motion any stimulated or stirred-up insects around nest opening. Afterwards, move forward to nest opening and spray liquid for 6 to 8 seconds directly into nest hold. This will suffocate bees in nest,; other bees trying to return to nest will be repelled and will fly around and away harmlessly.

Spiders: Spray directly on spiders and web.

Note to Painters: After treatment, remove nest, dry surface, and paint or carry out any other outdoor activity.

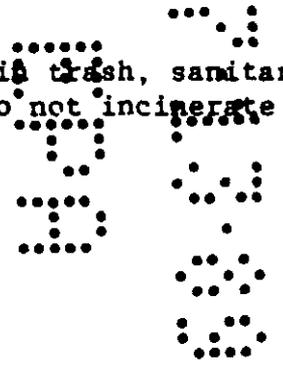

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool area away from heat or open flame.

Pesticide Disposal: Pesticide that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

Container Disposal: Replace cap and discard empty container in trash, sanitary landfill, or by other approved state and local procedures. Do not incinerate or puncture.

Back Panel (cont.):

PRECAUTIONARY STATEMENTS

CAUTION

Hazards to humans or domestic animals. Caution: Avoid breathing vapor or spray mist. Avoid contact with skin and eyes. If contacted, wash with soap and water. Harmful if swallowed or absorbed through the skin. Physical or Chemical Hazards: Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Do not spray on plastic or asphalt surfaces. Spray will cause damage to plants on contact.
