

Label #16-2140  
Rev. 5/74

[499-166]

**Whitmire** PRESCRIPTION TREATMENT  
No. 140 SYNTHETIC PYRETHROID SBP-1382

For use by semi-trained workers or professional exterminators in food processing areas and processing areas, hospitals, hotels, etc.

**FOOD PROCESSING AREAS OF FOOD PLANTS**

Use in Food Processing Areas of Food Plants. Cleanse the surfaces of these areas.

Use in food processing areas of food plants. All food processing areas should be cleaned daily, or at least once a week, with this product. When using the product in these areas, apply only to surfaces that are not in operation.

Avoid inhalation and skin contact. Contains under pressure. Do not puncture. Do not use to store food or other items. Exposure to temperatures above 130° Fahrenheit will cause bursting. Never allow container into fire or incinerator. Deposit in safe place. Do not spray where it may go into fuel-tank pumps.
