Mr. Michael Sarli  
Whitmire Research Laboratories, Inc.  
4568 Tree Court Industrial Boulevard  
St. Louis, MO 63122

Dear Mr. Sarli:

Subject: Whitmire Prescription Treatment No. 140  
EPA Registration No. 499-166  
Your Letter Dated March 4, 1986 and Labels Submitted  
November 4, 1987

Since the substantially similar product you reference, EPA Registration No. 499-160, meets the criteria of Toxicity Category II, the proper signal word is "Warning."

Acute studies must be conducted using this product within one (1) year of the date stamped on this letter. The proper signal word for this product will be determined after the acute studies conducted on this product have been reviewed.

The other revisions to the label are acceptable. A stamped copy of the label you submitted, with the signal word "Warning," is enclosed for your records.

Sincerely yours,

Phil Hutton  
Product Manager (17)  
Insecticide-Rodenticide Branch  
Registration Division (TS-767C)

# PT<sup>®</sup>140 Resmethrin Flushing & Contact Kill

Reg no: 499-166

PH-17

# PT<sup>®</sup>140 Resmethrin

**USES:** For Roaches, Spiders, Waterbugs, Ants, Earwigs, Sowbugs, Centipedes, Grain Mites

**DIRECTIONS:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Place valve on valve stem and press down lightly making sure tip is pointing away from face and body. Place injection tube tip in cracks, crevices, holes, and other small openings and release approximately 1 second per spot for flushing and contact kill.

Inject and spray at locations where the above insects may be a problem.

For use by servicemen working for professional exterminators in homes, restaurants, food processing plants, hospitals, super markets, motels, hotels, offices.

This product may be used in the above locations when food is not being processed by injecting into cracks, crevices and other locations where these insects may be a problem contacting directly as many insects as possible.

### PRECAUTIONARY STATEMENTS • WARNING

**Hazards to humans and domestic animals:** Avoid inhalation of spray mist. Avoid contact with skin and eyes. Do not treat where spray may go into fish tank pumps.

**Food processing areas of food plants:** Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using product in these areas, apply only when the facility is not in operation.

**Physical or Chemical Hazards:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Do not spray on plastic, painted or varnished surfaces.

**DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.

Only for Sale to, Use, and Storage by Servicepersons.

## Flushing & Contact Kill Crack & Crevices Injection System
