PT 1200 Resmethrin Aerosol Generator

FOR PROFESSIONAL USE ONLY

Apply directly to foliage or flowers.

Kills on Contact Adult Whiteflies.
Kills on Contact Fungus Gnats on the Following:
Greenhouse ornamental foliage and flowering plants: Roses, Chrysanthemums, Snapdragon, African Violet, Chlorodendron, Colias, Begonia, Crassula, Carnation, Lilies, Fern, Ficus, Geraniums, Dahlias, Fuchsia, Hibiscus, Petunias, Cactus, Amaranths and Peperomia.

PRE-APPLICATION DIRECTIONS

For best results apply during early evening when foliage is dry, temperature between 60°-85° F.
Shut off all exhaust fans and close all windows, ventilators, and doors. If greenhouse cannot be closed tightly, use higher spray dosage. Keep greenhouse closed 2-4 hours, preferably over night following treatment. All human occupants and pets must be removed from the greenhouse before treatment is started. Occupants should not re-enter the building until it has been ventilated.

PT® 1200 Resmethrin

PRECAUTIONARY STATEMENTS

WARNING:
Avoid contact with eyes, nose, and mouth. Avoid inhalation of spray mist. If in contact with skin, wash with plenty of water. Get medical attention if irritation persists. Contaminate water, food, or food stuffs. Remove all pets. Cover fish tanks or remove.

Dosage: Apply on 2-4 plants per 100 sq ft. Lower if foliage is dense. Apply to foliage and flowers. Hold spray gun close to plant and sweep across upward so that fine particles deposit under the plant leaves. Move gun in a sawtooth motion to provide maximum coverage, maintaining a distance of 8 to 24 inches from plants.

Repeat application every 4 to 6 weeks or longer if needed.
Refer to Supplemental Label For Total Release Application Of This Product For Adult Whitefly Control.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Personal Protection: Wear a pesticide respirator jointly approved by the Mining and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11.

Environmental Hazards: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Physical or Chemical Hazards: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting.

Special Notice: Good greenhouse management must override the use of PT 1200 when any conditions might be created by tightly closing greenhouses that would harm plant foliage or flowers. Example—creation of high temperature or humidity conditions. Do not use PT 1200 in greenhouses with unvented or defective gas heating systems or where open combustion exists.
