Submit a copy of the approved application to EPA along with the revised labeling.

2. Replace:

All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

with:

Food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse before using.

3. In reference to the percentage of PYRIMETHIN, you should insert a zero before ".500%" so as to read "0.500%."

4. The decimal point for the inert ingredient percentages should be aligned with the decimal points of the active ingredient percentages.

A complete product chemistry data matrix has been provided for the product. The data are acceptable and comply with the requirements of Sections 158.150 through 158.190 of Title 40 of the Code of Federal Regulations. Note that the results of the 1-year storage stability data at ambient warehouse conditions should be submitted to the Agency at the completion of the tests.

The Confidential Statement of Formula dated July 6, 1988 is filled out correctly, it agrees with the label and is acceptable.

The prelabeling safety information (PLSI) is acceptable. We request you provide another formulation. If you do this, we will expedite the review of the formulation amendment.

A stamped copy of the draft label is enclosed for your records. Please submit five (5) final printed labels.

Sincerely yours,

Fullerton
