

Rev. 4/83 Label #18-2230

# PT<sup>®</sup> 230 Tri-Die Insecticide Spray

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER

Causes eye damage. Wear goggles or safety glasses when applying. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling a 30 fore smoking or eating. Avoid contamination of food and foodstuffs. Do not use in serving areas while food is exposed.

**Notice to Operator:** In order to avoid an unpleasant drying of the nose and throat when dispensing PT 230 Tri-Die in confined areas or when prolonged exposure to spray mist occurs, wear a pesticide dust respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute of Occupational Safety and Health under the provisions of 30 CFR Part 11.

### STATEMENT OF PRACTICAL TREATMENT

**IF IN EYES** — Flush eyes with plenty of water. Get medical attention.

**IF SWALLOWED** — Call a physician or Poison Control Center immediately. Gastric lavage may be indicated if material was taken internally. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia.

**IF INHALED** — Remove victim to fresh air. Apply artificial respiration if indicated.

**IF ON SKIN** — Remove contaminated clothing and wash affected areas with soap and water.

### PHYSICAL OR CHEMICAL HAZARDS

**Flammable:** Contents under pressure. **Keep away from heat, sparks, and open flame.** Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Do not spray on plants. PT 230 Tri-Die is phytotoxic.

Do not spray on plastic, painted, or varnished surfaces. Do not spray directly into any electronic equipment such as radios, televisions, computers, motors, or into outlets and switches or any other location where the powdery residue may foul or short electric contacts and circuits.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Store in a cool area away from heat or open flame. Do not reuse empty container. Wrap container and put in trash collection.

**SHAKE WELL BEFORE USE.** Before storing after use, invert container and spray until only air comes out to clear valve and spray nozzle.

### How to Use Whitmire Crack and Crevice Injection Equipment

Do not use as a space spray. Except when used as a broadcast spray for flea control, Whitmire's PT 230 Tri-Die is for use only with injection tube for injecting into cracks and crevices where insects may be hiding, living, and breeding. Place injector tip 1/4" into cracks, crevices, holes, and other small openings where insects may be a problem. Release approx. 1-second spray per spot. In serious infestations, if possible, place spots 12" apart. In light infestations or for preventive treatment, place spots approximately 3 ft. apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of one inch per second in heavy infestations and three feet per second in light infestations. See additional directions below for effective control of specific insects.

### INDOOR PESTS

**Crawling Pests:** Cockroaches, crickets, beetles, spiders, earwigs, sawbugs, millipedes, centipedes. Spray into hiding places such as cracks and crevices, most areas, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, in dark storage areas and all other areas where these pests are found. Spray directly on insects in these locations where possible. Repeat as necessary.

**Beetlice, Silverfish, Firebrats:** Spray cracks and crevices in baseboards, door frames, bookshelves, and storage areas. Spray directly on insects in these locations where possible. Repeat as necessary.
