APR 22 1985

Whitire Research Laboratories, Inc.
3568 Tree Court Industrial Boulevard
St. Louis, MO 63122

Attention: Michael G. Sarli

Gentlemen:

Subject: Sektrol Two-Way Flea Foam No. 1498
EPA Registration No. 499-231
Your Letter of September 13, 1984

Your proposed amendment to the registration of the product listed above to revise the precautionary statements on the label is acceptable subject to the comments listed below, and a stamped copy of the draft label is enclosed for your records. Submit five (5) copies of the corrected finished printed label before the product is released under this amended labeling.

1. The statements "avoid contact with eyes. In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists" must precede the precautionary statements for cats and kittens. These human precautionary statements must take precedence.
2. In the human precautionary statements cited in comment number 1, the word "veterinarian" must be changed to "medical."

Sincerely,

Timothy A. Gardner
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

CAUTION:

Precautionary Statements

Hazards to Humans and Domestic Animals:

Cats and kittens may be sensitive to the product. If adverse reactions are observed, bathe the pet immediately to remove insecticide. If symptoms persist seek veterinarian attention.

Avoid contact with eyes. In case of contact, immediately flush eyes with plenty of water. Get veterinarian attention if irritation persists.

Physical or Chemical Hazards:

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Do not store below 32°F. Exposure to temperatures above 130°F may cause bursting.

Notice - Limited Warranty: 3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises for the product. 3M will replace any defective product.

This replacement warranty is the buyer's only remedy against 3M for a defective product and replaces any other claim against 3M for damage or loss of any type.

Some states do not allow the exclusion or the limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Any warranty questions, contact Animal Care Products/3M.

Contains sodium nitrate as a corrosion inhibitor.

"SECTROL" IS A REG. TM OF 3M.

U.S. Patent No. 4056610

RIGHT PANEL

Shake Well Before Using.

Directions for Use:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Es una violacion de la ley Federal usar este producto en una manera inconsistente con la etiqueta.

For Dogs and Puppies:

Start by applying a one-second burst of SECTROL Two-Way Flea Foam directly on haircoat near the pet's head. (Note: SECTROL Two-Way Flea Foam is an excellent product to use on nervous or hyperactive pets because it can be applied first into your palm while you face away from the animal.) Massage the foam into the haircoat until it disappears. Repeat this procedure making sure to thoroughly moisten the entire haircoat and any exposed skin with SECTROL Two-Way Flea Foam to assure adequate coverage.

Be sure to apply SECTROL Two-Way Flea Foam between the toes and foot pads and any other areas where fleas may hide to avoid contact with the insecticide.

The microcapsules in SECTROL Two-Way Flea Foam adhere to the haircoat and continuously release the active ingredients, thereby maintaining at least one week residual activity.

For best control, reapply SECTROL Two-Way Flea Foam weekly.

Unlike some insecticides SECTROL Two-Way Flea Foam is not a cholinesterase inhibitor. If label directions are followed, it may be used on puppies and kittens 6 weeks or older. Safety for use on animals younger than 6 weeks has not been determined.

For Cats and Kittens: Follow above directions, but apply product sparingly, only until haircoat is damp. DO NOT THOROUGHLY WET THE HAIRCOAT AND SKIN as this may result in an overdose of pyrethrins, and is not necessary for adequate flea control. See precautionary statements.

In addition to treating your pet directly, control of fleas in your pet's environment is important if you wish to eliminate fleas from your home. Ask your veterinarian about SECTROL Premise Flea Spray (No. 1494) to help eliminate fleas from the carpeting, furniture, and other pet activity areas. When used as directed, SECTROL Premise Flea Spray provides up to 30-day residual control of fleas in th home.

STORAGE AND DISPOSAL

Container Disposal: Do not reuse empty container. Do not puncture or incinerate. Replace cap and securely wrap in several layers of newspaper and discard in trash.

Storage: Store in a cool dry place away from heat and open flame and inaccessible to children.
