3. Submit a 1-year storage stability study. The formulated product must be analyzed for its active ingredient at time zero and during a year in storage. The storage should be under warehouse conditions with the product packaged in containers similar to those which will be used when marketing the product. These data must be submitted within 15 months of the date of this Registration Notice.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Back Panel:

#### GENERAL INFORMATION

PT 411 Flea fogger contains an insect growth regulator that prevents flea larva from developing into adult biting fleas. For effective flea control this product must be applied before an active flea population has been established. If an active flea population is present an adulticide should be applied to control the biting stages. PT 411 Flea Fogger will then prevent re-establishment of a biting population.

One application of PT 411 Flea Fogger will prevent flea infestations for up to 6 months. Occasionally adult fleas may be present in treated areas when reintroduced from infested animals. This will not affect the long-term larval control of Flea Fogger.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

##### CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid inhalation of vapor. Avoid contact with skin, eyes or clothing. Remove pets and birds and cover or remove aquariums before use. Avoid contamination of food and foodstuffs. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared, processed or stored.

##### PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Pilot lights and other ignition sources should be turned off when using Flea Fogger PT 420 in small, confined spaces such as closets. Do not allow spray to directly contact plastic, painted or varnished surfaces or any electronic equipment such as radios, televisions, computers, etc.

Back Panel (cont.)

#### DIRECTIONS FOR USE

It is a violation to use this product in a manner inconsistent with its labeling.

For most effective results, entire dwelling should be treated. Use one fogger for each 750 sq. ft. 1. Close outside doors and windows and turn off fans and air conditioners. Open interior doors, cupboards, and closets of areas to be treated. 2. Remove pets, but be sure to leave pet bedding as this is a primary hiding place for fleas and must be treated to get best results. 3. Cover or remove fish tanks and bowls. Cover or remove exposed food, dishes, utensils, food handling equipment. Leave rugs, drapes, slipcovers, an upholstered furniture in place. 4. Place fogger on a raised area such as a table or chair with newspapers covering the area directly under the can. 5. Keeping at arm's length, point top of can away from face and press down actuator tab to lock in position and start fogging action. Set in an upright position and leave treated area for 2 hours. 6. After 2 hours, open all doors and windows, turn on air conditioners or fans, and let treated area air for 30 minutes. 7. All food preparation surfaces should be covered during treatment or thoroughly cleaned before using.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool dry area away from heat or open flame and inaccessible to children.

Waste Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Replace cap, wrap in newspaper and discard in trash, sanitary landfill or by other approved state and local procedures. Do not puncture or incinerate.
