PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

CAUTION

Avoid contact with eyes, skin or clothing. In case of contact immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. Harmful if swallowed. Do not induce vomiting. Call physician immediately.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 120°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

For outdoor use. Can also be used in attics, warehouses and other storage area where foods and feedstuffs are not exposed.

For Outdoor Use: Application should be made in late evening when hornets, wasps and yellow jackets are at rest. Hold can upright, remove cap. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under leaves, chimneys, cracks or crevices, etc.

To Kill Spiders: Same as directed for indoor applications.

For Indoor Use: Point valve opening away from face. Aim directly at nests of hornets, wasps and yellow jackets under rafters, etc. Do not spray in areas where foods and feedstuffs are exposed or handled.

Thoroughly saturate nest with spray, contacting as many insects as possible. To prevent insects from falling on skin and clothes, do not stand directly under nest. Best results can be obtained if nest is sprayed in late evening when most insects are at rest. If reinfestation occurs, repeat treatment.

To Kill Spiders: Spray directly on these pests and use repeated applications to the webbing and at cracks and crevices which harbor spiders.

STORAGE AND DISPOSAL

STORAGE - Store at temperatures below 120°F. Keep away from heat or open flame.

DISPOSAL - Do not reuse empty container. Wrap container and put in trash collection.
