Aids in the control of Cockroaches

Cover exposed food, dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows. Point valve pointing away from face and eyes when releasing. Use one unit for each 6000 cubic feet of unobstructed area. Do not remain in the area during treatment and re-entrance thoroughly before re-entry.

**TO OPERATE VALVE:** To lock valve in open position for automatic discharge, press valve button on the way down, locking the catch. Then place fogger on stand or table in center of room with valve locked open, placing several layers of newspaper or pad under fogger. Leave building at once and keep building closed for four hours before going out. Open all doors and windows and allow to sit for 20 minutes. Repeat fogging as needed or when necessary.
