Mr. Michael G. Sarli
Whitmire Research Laboratories, Inc.
3568 Tree Court Industrial Blvd.
St. Louis, MO 63122

Dear Mr. Sarli:

Subject: Label Revision
PT 515 Wasp-Freeze
EPA Registration Number 499-362
Submission dated June 17, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

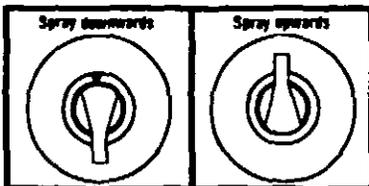

Sincerely,

Richard F. Mountfort
Product Manager 10
Insecticide Rodenticide Branch
Registration Division (H7505C)

Whitcomb Wasp-Freeze[®] Wasp and Hornet Killer

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wind should always be at back of user, and blowing towards object being sprayed. For optimum performance, if spraying overhead, line actuator spout with mark on valve cup. If spraying down, line actuator spout to be directly opposite mark on valve cup.

WASPS AND HORNETS: Hold container in upright position to spray. Stand safe distance, 6-12 feet from nest and not directly underneath. Align actuator opening toward mark on valve cup. Aim actuator opening at nest with wind at your back. Spray until nest is thoroughly wet. Hit wasps and hornets on nest when possible. Best time to spray is in early morning or in evening, since wasps and hornets congregate on or in nest at night. Do not apply to pets or contaminate food, foodstuffs, dishes or utensils. Avoid spraying plants foliage as injury may occur. For outdoor use only. Not a space spray. To prevent dying insects from falling on skin and clothing, do not stand directly under nest being sprayed.

YELLOWJACKETS AND BEES: Locate underground nest. Align actuator opening away from mark on valve cup. Depress actuator and spray, with a sweeping motion, any stimulated or stirred up insects around nest opening. Afterwards, move forward to nest opening

and spray liquid from 6 to 8 seconds directly into nest hole. This will suffocate bees in nest, other bees trying to return to nest will be repelled and will fly around and away harmlessly. **SPIDERS, INCLUDING BLACK WIDOW AND BROWN RECLUSE:** Spray directly on spiders and web.

Industrial Specifications

Flash Point: 144 F
Dielectric No. breakdown up to 20,000 volts, cup test with wire, probes 1/16" apart. No arcing at 35,000 volts, spray test electrodes 1/2" apart.
Tested on Polyethylene, Polycarbonate, Noryl[®], ABS 1 and ABS SB4500 plastics with no damage.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: **CAUTION:** Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin and eyes. Wash contaminated skin promptly with soap and warm water. For eyes, flush with plenty of water. Get medical attention if irritation persists.

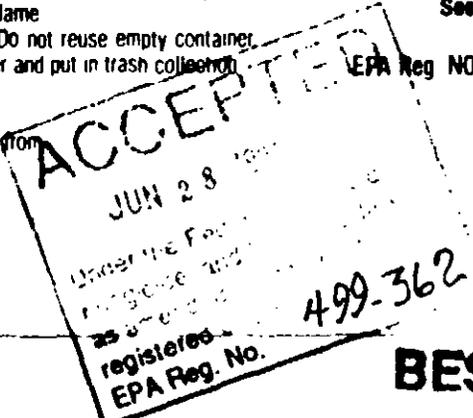

ENVIRONMENTAL HAZARDS: This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift from treated areas may be hazardous to organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. May cause staining (darkening) of asphalt surfaces and shingles.

STORAGE AND DISPOSAL

STORAGE: Store in a cool area away from heat or open flame.
DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Wasp and Hornet Killer

Kills on contact from 12 feet away

KILLS: Bees, Hornets, Spiders, Yellowjackets and

ACTIVE INGREDIENTS:

d-trans Allethrin
*3-Phenoxybenzyl (1RS, 3RS, 1RS, 3SR) 2,2-Dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate
INERT INGREDIENTS

*PHENOTHHRIN
Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting because of aspiration hazard. Get medical attention.
IF ON SKIN: Wash off with soap and warm water. Get medical attention if irritation persists.
IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.
