SUPPLEMENTAL LABEL

Whitmire  
PT<sup>®</sup> 515  
Wasp Freeze<sup>®</sup>

(EPA Reg. No. 499-362)

**ACCEPTED**  
15 APR 1993  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No. 499-362

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**MOUND BUILDING ANTS, INCLUDED FIRE ANTS:** Hold can upright when applying product. To treat mounds use the Whitmire soil injector. To quiet active ants on mound surface, sweep surface with spray. To maximize spray distribution insert injector into the mound full length if possible. Inject the mound at 3-6 sites at a rate of 2 seconds spray per site. For very large mounds (over 16" diameter) increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one site in the center. Treat new mounds as they appear.

Read and follow all precautionary statements on the product label.
