NOTIFICATION

JAN 30 2004

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Notification of label change relative to PR Notice 2001-6. This notification is consistent with the guidance in PR Notice 2001-6 and the requirements of EPA's regulations at 40 CFR 165.10 and 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the guidance of PR Notice 2001-6 and the requirements of 40 CFR 156.10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Dana Thomas	Title Manager, Product Registrations	Telephone No. (include Area Code) (636) 861-4223
2. Signature <i>Dana M. Thomas</i>		3. Title Manager, Product Registrations
4. Typed Name Dana M. Thomas		5. Date January 9, 2004
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment both under applicable law.		6. Date Application Received (Stamped)

WASPS AND HORNETS: Hold container in upright position to treat. Stand safe distance: 6-15 feet from nest and not directly underneath. Align actuator opening with the mark on valve cup. Aim actuator opening toward nest. Treat nest until thoroughly wet. Wasps and hornets on nest should be contacted with spray when possible. Best time of day to treat is in evening or early morning, since wasps and hornets congregate on or in nest at night. Do not apply to pets or contaminate food, foodstuffs, dishes or utensils. For outdoor use only. To prevent dying insects from falling on skin and clothing, avoid standing directly under nest being treated.

YELLOWJACKETS AND BEES: Locate underground nest. Align actuator opening directly opposite the mark on valve cup. Depress actuator and treat, with a sweeping motion, any stimulated or stirred-up insects around nest opening. Afterwards, move forward to nest opening and apply liquid for 6 to 8 seconds directly into nest hole. This will suffocate bees and yellowjackets in nest; other bees and yellowjackets trying to return to nest will be repelled and will fly around and away harmlessly.

MOUND BUILDING ANTS, INCLUDING IMPORTED FIRE ANTS: Hold can upright when applying product. To treat mounds use the Whitmire Micro-Gen soil injector. To treat active ants on mound surface, spray surface with a sweeping motion. Maximize distribution of insecticide by inserting the full length of the injector into the mound if possible. Inject the mound at 3-6 sites at a rate of 2 seconds per site. For very large mounds (over 16" diameter) increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one injection site in the center. Treat new mounds as they appear.

SPIDERS, INCLUDING BLACK WIDOW AND BROWN RECLUSE: Apply spray directly onto spiders and web.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Store in a cool area away from heat or open flame. **CONTAINER DISPOSAL:** Do not puncture or incinerate! Empty container by using the product according to the label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly full, contact your local solid waste agency or call 1-800-CLEANUP for disposal instructions.

INDUSTRIAL SPECIFICATIONS

Flash Point (TCC): 144°F
Dielectric (cup test with electrodes 1/10" apart): No breakdown up to 49,300 volts.
Arcing (spray test electrodes 12" apart): No arcing at 35,000 volts.
Tested on Polyethylene, Polycarbonate, Noryl, ABS-T and ABS-SB4500 plastics with no damage.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

PRECAUTIONARY STATEMENTS

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-225-3320 for emergency medical treatment information.

NOTE TO PHYSICIAN: Contains petroleum distillate; vomiting may cause aspiration pneumonia.

**HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, inhaled, or if absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

PHYSICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. May cause staining (darkening) of asphalt surfaces and shingles.

DIRECTIONS FOR USE

**IT IS A VIOLATION OF FEDERAL LAW TO USE
THIS PRODUCT IN A MANNER
INCONSISTENT WITH ITS LABELING.**

For optimum performance in overhead treatments, align the actuator opening with the mark on valve cup. When treating in a downward direction, align the actuator opening directly opposite the mark on valve cup.

Dear Sir/Madam:

Enclosed in support of this action is a completed application and one copy revised labeling for each of the referenced products. The disposal statement has been revised to be consistent with PR Notice 2001-6.

These notifications are consistent with the guidance in PR Notice 2001-6 and the requirements of EPA's regulations at 40 CFR 156.10 and 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of these products. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if these notifications are not consistent with the guidance or PR Notice 2001-6 and the requirements of 40 CFR 156.10 and 40 CFR 152.46, these products may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.
