Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 499-397".

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

GENERAL INFORMATION

PT 422 contains a flea knockdown agent, an adulticide; and a growth regulator, which kills flea eggs and larvae. PT 422 will control active flea populations and prevent them from recurring for a full flea season. Occasionally adult fleas may be present in treated areas when reintroduced from infested animals.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For most effective results, entire building should be treated. Use one unit for up to 750 square feet (6000 cu. ft.) of unobstructed area. To determine the cubic footage of a room, multiply the length the width by the height of the room.

Close exterior doors and windows. Cover or remove exposed foods, utensils, dishes, and food handling equipment. Open cabinets and closets in area to be treated. Shut off fans and air conditioners. **Put out all flames and pilot lights.** Do not use this unit in a cabinet or under a counter or table. Do not use this unit in an area less than 100 cubic feet. Remove pets and birds. Cover or remove fish tanks and bowls. Do not remain in the area during treatment.

Place product on a raised object in the center of area to be treated or near point of greatest infestation. Place disposable material (such as newspaper, paper towels, plastic) under canister. Press tab down in locked position.

Leave building at once. The entire contents will release automatically. Keep building closed for at least one hour. Before reoccupying treated areas ventilate for 30 minutes. All food processing surfaces should be thoroughly cleaned before use. Repeat treatment as necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place away from heat or open flame

DISPOSAL: Do not reuse empty container. Wrap the original container in several layers of newspaper and put in trash collection. Do not incinerate or puncture.
