CHILD RESISTANT BAITS

NET WT.: Oz.

(BACK PANEL)

**Whitmire Micro-Gen Ant Reactor
Ant Control Baits**

**For Commercial, Industrial and Residential Use
Including Processing Plants, eating Establishments, Food Marketing-
Storage-Distribution, Hospitals, Nursing Homes, Schools, Office
Buildings, Apartments, Laundries, Buses, Aircraft, Boats, Museums, and Zoos**

Ants are attracted to the bait in Whitmire Micro-Gen Ant Reactor. The bait food is carried back to the nest to kill the queen and destroy the entire colony.

Whitmire Micro-Gen Ant Reactor baits are packaged in a Child-Resistant Container.

Bait stations are designed to be visually inspected. This allows for monitoring and timely replacement. Replacement is recommended after 3 months or when bait is almost entirely consumed (do not risk loss of control by allowing complete consumption).

Direction for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Place baits by ant trails or close to areas where ants are present, even on food preparation surfaces or next to food. Do not place baits on food preparation surfaces when food is being handled or on utensils that are used for food preparation. Also place adjacent to walls, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings and wall voids or anywhere ant problems occur.

For effective control:

- Use 3 - 4 baits for the average size room.
- Use 6 - 8 baits for heavy infestations.

For outdoor use, place baits by ant trails or close to areas where ants are seen. For best results around building perimeters, place baits at sites where ants are active or at approximately 9 foot intervals.

Ants will begin to feed - population reduction and less activity can be expected in about a week.

Do not use residual sprays with or near Whitmire Micro-Gen Ant Reactor.

APPLICATION IN FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Avoid contamination of food. Use as instructed above.

STORAGE AND DISPOSAL STATEMENTS

STORAGE: Store in a cool, dry area inaccessible to children.
DISPOSAL: Wrap container and put in trash collection.

Additional list of Use Sites for Whitmire Micro-gen Ant Reactor.

Greenhouse (Commercial)

HOUSEHOLD - Closets, basements, attics, recreation rooms, kitchens, bathrooms, dining rooms, pantry and food storage shelving.

TRANSPORTATION FACILITIES

- Trucks and Trailers
- Containerized Units
- Railroad Cars
- Recreational Vehicles
- Shipping Containers
