PRECAUTIONARY STATEMENTS

FIRST AID

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

COCKROACHES : Concentrate treatment at insect activity sites, and other sites where these insects are found.

1. Break bait stations apart from the plastic frame. [Alternate Directions: Remove bait station from container.]
2. For thorough roach control, use as many bait stations as necessary to achieve good coverage and control of the existing infestation for the treated area.
3. For best results, place the bait stations next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. Use under and around equipment and appliances. If possible, place in voids.
4. Bait stations work best on horizontal surfaces touching corners and walls. If you apply a bait station on a vertical surface, use the enclosed stickers.
5. Replace bait stations when necessary, approximately every 3 months.

APPLICATIONS IN FOOD HANDLING ESTABLISHMENTS: Food handling establishments include places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Avoid contamination of food. Use as instructed above.

AIRCRAFT CABINS: Place bait stations in suspected and infested cockroach areas. Place bait stations in areas between elements of construction. Use up to 12 bait stations per galley and up to 6 bait stations per rest room. In cargo holds, use 12 to 24 bait stations per 100 sq. feet. Do not use bait stations in cockpit area.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry area inaccessible to children.

DISPOSAL: Wrap container and put in trash collection.
