Subject: Notification per PRN 98-10 – Edit alternate brand name and update label format
Product Name: TC 234
EPA Registration Number: 499-496
Application Date: 02/09/2024
Case Number: 498918

Dear Mr. Sharma:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The alternate brand name, “**Advance® 360A Dual Choice Ant Bait Stations**” has been added to the product record.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, please contact Joseph Belsky at 202-566-2495 or at belsky.joseph@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Melissa Bridges". The signature is stylized with a large, sweeping initial "M" and "B".

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

ANTS: Concentrate treatment at insect activity sites. Ants are attracted to the bait and it is carried back to the nest to kill the queen and destroy the colony. Baits are packaged in a child-resistant container.

1. Break bait stations apart from the plastic frame.
[Alternate Directions: Remove bait station from container.] To stick on vertical surfaces, remove peel and stick backing on reverse side of bait station.
2. For thorough ant control, use as many bait stations as necessary (normally 3 to 4 stations for an average size room or 6 to 8 stations for a heavy infestation).
3. For best results, also place bait stations along walls, baseboards, in corners, under sinks, in cabinets, pantries, near plumbing, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings, wall voids, under and around equipment and appliances.
4. Replace bait stations when necessary, approximately every 3 months.

APPLICATIONS IN FOOD HANDLING

ESTABLISHMENTS: Food handling establishments include places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Avoid contamination of food. Use as instructed above.

AIRCRAFT CABINS: Place bait stations in suspected and active ant areas. Place bait stations in areas between elements of construction. Use up to 6 bait stations per galley and up to 3 bait stations per rest room. In cargo holds, use 6 to 12 bait stations per 100 ft². **DO NOT** use bait stations in cockpit area.

STORAGE & DISPOSAL

DO NOT contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container. **DO NOT** reuse or refill this container. **If Empty:** Place in trash or offer for recycling if available. **If partly Filled:** Call your local solid waste agency for disposal instructions.
