U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number: 499-501	Date of Issuance: JUL - 3 2008
---------------------------------	---------------------------------------

NOTICE OF PESTICIDE:
 ___ Registration
 .x. Reregistration
 (under FIFRA, as amended)

Term of Issuance: Unconditional
Name of Pesticide Product: Prescription Treatment® brand PT 224B

Name and Address of Registrant (include ZIP Code):

Whitmire Micro-Gen Research Laboratories, Inc.
3568 Tree Court Industrial Boulevard
St. Louis, MO 63122-6682

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

Please see page 2 for label comments and existing stocks provisions

You must submit one (1) copy of the final printed label before you release the product for shipment. A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Julie Chao at 703-308-8735 or chao.julie@epa.gov.

Signature of Approving Official:
 Meredith F. Laws, Chief *Meredith F. Laws*
 Insecticide-Rodenticide Branch
 Registration Division (7505P)

Date:

JUL - 3 2008

Label Comments:

Note: The name on the label, Prescription Treatment® brand PT 224B, has been noted in our records as the new primary brand name for this product.

Note: Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

The following information, found on the referenced Website "www.wmmg.com," is false and misleading, and therefore not in compliance with the terms of your registration under FIFRA for this product:

- References to residual control, or classification as a "residual insecticide"
- The claim "long lasting"
- References to residential use

Pages containing the above referenced claims include, but are not limited to:

- <http://www.wmmg.com/pt250/shell.asp?id=0>
- <http://www.wmmg.com/products/index2.asp>
- <http://www.wmmg.com/products/products-item2.asp?id=446>
- <http://www.wmmg.com/products/products-item2.asp?id=507>

Please take immediate action to correct these statements, or any other that are not in accordance with your registration under FIFRA. Failure to comply may result in appropriate enforcement action.

Use of Existing Stocks of Labels:

If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS NOT labeled with the prohibition on indoor residential spray use, then you may label your product with existing stocks for up to 12 months after the date of this reregistration notice.

If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS labeled with the prohibition on indoor residential spray use, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.

If you formulate your end-use product with technical product purchased after January 31, 2009, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.

FIRST AID

CONTAINS AN ORGANOPHOSPHATE THAT INHIBITS CHOLINESTERASE.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 – 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 min. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-225-3320 for emergency medical treatment information.

NOTE TO PHYSICIAN: Product contains petroleum distillate - vomiting may cause aspiration pneumonia. Product contains an organophosphate that inhibits cholinesterase. If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Avoid contact with skin or clothing. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Applicators and other handlers must wear long-sleeved shirt and long pants, chemical-resistant gloves and shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove protective clothing and equipment immediately after handling this product. Wash the outside of gloves before removing. Keep and wash protective clothing and equipment separately from other laundry.

ENVIRONMENTAL HAZARDS

This product is toxic to wildlife and aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply as a landscape treatment (to lawns, shrubs, trees or garden plants).

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, open flame or pilot lights. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Do not apply this product in a way that will contact any person or pet, either directly or indirectly. Keep people and pets out of the area during application. Do not smoke while using. Provide adequate ventilation of area being treated. Do not apply to humans, pets or plants or contaminate feed, foodstuffs, dishes or utensils. Cover and avoid spraying fish aquariums.

HOW TO USE PRESCRIPTION TREATMENT BRAND 224B

SPOT TREATMENT: Apply to surfaces as a spot treatment only. Do not spray up into air. Point spray opening toward surface to be sprayed and press button firmly. Hold about 12" from the surface being sprayed. Spray around baseboards, doors, window sills and plumbing and other places where insects may enter. Spray into inaccessible areas behind and beneath sinks, stoves, cabinets, refrigerators, damp areas, and in and around waste containers. Avoid excessive wetting of asphalt, tile, rubber, and plastic. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests as possible. Do not treat open floor areas, furniture, beds or bedding. Clean any exposed area where food or people may contact.

CRACK & CREVICE® TREATMENT: Use with the supplied actuator and injection tubes or other Whitmire Micro-Gen equipment. Inject into cracks and crevices or void spaces where insects may be harboring, living and breeding. Place injector tip into cracks, crevices, holes and other small openings where insects may enter. Spray into inaccessible areas behind and beneath sinks, stoves, cabinets, refrigerators, damp areas and in and around waste containers. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests as possible.

ENTRY RESTRICTION: Do not allow people or pets to enter the treated area until sprays have dried.

5/5

[MASTER LABEL]

v6.0.2 (6/20/08)

ANTS (excluding Carpenter, Fire, Harvester and Pharaoh): Apply as a spot treatment or Crack & Crevice treatment. Spray into nests, trails, around doors, windows, into structural cracks and crevices, and wherever ants enter house. Spray directly on insects in these locations. Repeat as necessary. Do not treat entire area of floor or floor covering.

CRAWLING PESTS: Cockroaches, Waterbugs, Spiders (excluding Black Widow and Brown Recluse), Brown Dog Ticks, Earwigs, Crickets, Sowbugs, Millipedes and Centipedes – Apply as a spot treatment or Crack & Crevice treatment. Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes and manholes. Spray directly on insects in these locations. Repeat as necessary.

BOOKLICE & SILVERFISH: Spray cracks and crevices in baseboards, doorframes, bookcases and storage areas. Spray directly on insects in these locations. Repeat as necessary.

GRAIN WEEVILS, FLOUR BEETLES, CHOCOLATE MOTHS, DRUGSTORE BEETLES (in exposed adult and larval stages) and hibernating stages of BOXELDER BUGS, ELM LEAF BEETLES, CLUSTER FLIES and CLOVER MITES: Contact as many insects as possible when treating infested areas such as cracks and crevices in wall voids, around windows and doorframes, under siding, in machinery, and in dark, secluded areas. Repeat as necessary.

Localized treatment of wood destroying insects: **CARPENTER BEES –** Locate source of infestation. Inject 5 – 10 sec of spray into insect tunnels and cavities. Seal entrance openings with small pieces of stainless steel wool after spray application.

TERMITES: Locate source of infestation. Apply to voids and channels in damaged wooden members of a structure or to cracks, spaces or bearing joints between wooden members of a structure. Inject 5 – 10 sec spray into insect tunnels and cavities. This application is not a substitute for mechanical alteration, soil treatment or foundation treatment but is merely a supplemental treatment. This product is intended to kill workers or winged reproductive forms which may be present in the treated areas.

BED BUGS: Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Treat mattresses, especially tufts, folds and edges. Allow mattresses to dry thoroughly and cover with clean bedding before using. Bed bugs may also harbor in areas of the room away from the bed. Apply as a Crack & Crevice or spot treatment to night stands and other furniture in the room, wall voids, behind wall hangings, floor molding, window casings, carpet edge, popcorn ceilings and other cracks and crevices. Will only kill bed bugs present at the time of application. Pests must be directly contacted to be effective. Contact as many bed bugs as possible.

APPLICATIONS IN AIRCRAFT: This product can be applied in cargo areas but not in aircraft cabins.

APPLICATION IN FOOD HANDLING ESTABLISHMENTS

Food handling establishments are places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS - APPLICATION LIMITED TO CRACK & CREVICE TREATMENT ONLY: Includes areas for receiving, storage, packaging, (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups).

Do not use this product in the serving/dining areas of restaurants.

Apply prescribed amounts of product as a Crack & Crevice treatment using the supplied injection tube or other Whitmire Micro-Gen equipment in points between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Do not allow the product to be deposited onto exposed surfaces or introduced into the air. Do not contaminate food, food utensils or food processing surfaces.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK & CREVICE TREATMENT IS NOT PERMITTED.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store away from heat or open flames, in an area inaccessible to children.

PESTICIDE DISPOSAL: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not puncture or incinerate! Empty container by using the product in accordance with the label directions. Do not reuse or refill this container. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly full, contact your local solid waste agency for disposal instructions.

Contains no CFCs or other ozone depleting substances.
Federal regulations prohibit CFC propellants in aerosols.
