NOTIFICATION

JUL 31 2006

**GENERAL INFORMATION**

**HOW TC 248 PC WORKS**

- TC 248 PC cockroach gel bait contains a powerful food based attractant.
- The attractant draws roaches to the bait
- Roaches eat the bait, then crawl away to die.

**USE RESTRICTIONS**

- Keep out of sunlight or excess heat.
- Do not apply bait to surfaces which may reach excessive temperatures. Examples include, but are not limited to: portions of stoves, ovens, grills, fume hoods, steam tables, toasters, fryers, dishwashers and hot water pipes

See full label for complete Directions for Use.

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**STORAGE:** Store in a cool, dry place away from heat or open flame and inaccessible to children.

**CONTAINER DISPOSAL:** Do not puncture or incinerate! Empty container by using the product according to label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly filled, contact your local solid waste agency or call 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

### PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Do not use this product where a possibility of a shock hazard exists.

## DIRECTIONS FOR USE

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

**READ ENTIRE LABEL.** Use strictly in accordance with Precautionary Statements and Directions and with applicable state and federal regulations.

### GENERAL INFORMATION

#### HOW TC 248 PC WORKS

- TC 248 PC cockroach gel bait contains a powerful food based attractant.
- The attractant draws roaches to the bait.
- Roaches eat the bait, then crawl away to die.

### USE RESTRICTIONS

- Keep out of sunlight or excess heat.
- Do not apply bait to surfaces which may reach excessive temperatures. Examples include, but are not limited to: portions of stoves, ovens, grills, fume hoods, steam tables, toasters, fryers, dishwashers and hot water pipes.

### SPOT TREATMENT

To apply gel, remove cap from tip of applicator tube. Apply gel in a 3 - 6 mm diameter spot (0.25 - 0.50 g). Approximately 10 spots per 100 ft<sup>2</sup> are recommended for use under conditions with low to moderate infestation. For more severe infestations, approximately 20 spots per 100 ft<sup>2</sup> are recommended. Apply many spots in areas of roach traffic and suspected harborage. Numerous small application spots are preferable to fewer larger application spots. Do not treat food preparation surfaces. Do not apply gel to areas that have been recently sprayed with insecticide. Do not spray insecticide products over gel placements as this may make gel repellent and reduce its effectiveness. Do not place treatments in locations where routine cleaning might remove bait or transfer bait to food or food preparation surfaces. This product will stick to surfaces that are not dusty or greasy. Reapply if gel placements are no longer visible and/or reinfestation occurs. Replace cap when finished dispensing gel. Use paper towel to remove unwanted bait placements and then discard in trash.

### CRACK & CREVICE® TREATMENT

This product can be applied as spots or as a line along cracks and crevices. Gel bait should be applied directly into cracks and crevices where insects hide. Place the appli-

cator tip directly into cracks and crevices and deposit gel in small spots or in a continuous bead. Bait should be in the void area and not on open or exposed surfaces.

### FOOD HANDLING ESTABLISHMENTS

Application within food areas of food handling establishments is limited to cracks and crevices where insects hide. To apply gel, remove cap from tip of applicator tube. Apply gel in a 3 - 6 mm diameter bead (0.25 - 0.50 g). Approximately 10 bait placements per 100 ft<sup>2</sup> are recommended for use under conditions with low to moderate infestation. For more severe infestations, approximately 20 bait placements per 100 ft<sup>2</sup> are recommended. Numerous small applications are preferable to fewer larger applications. Bait should not be used in open areas or on surfaces where contamination of food or food handling equipment may occur. Replace cap when finished dispensing gel.

Reapply gel if previous applications are no longer visible and/or reinfestation occurs.

### APPLICATIONS IN AIRCRAFT

Application within passenger areas of aircraft is limited to Crack & Crevice treatment only. Apply TC 248 PC in areas between elements of construction (such as areas under sinks, openings around pipes, under shelving, where shelving meets other shelves or the wall, area between and around microwaves, where support braces attach to the main structure and where seats are attached to the floor). Apply 10 - 20 bait spots per 100 ft<sup>2</sup> as described above. Do not apply bait to areas where food, utensils or food preparation surfaces may become contaminated. Do not apply bait to areas that are routinely washed such as cracks and crevices in tops of tables, food prepara-

tion and food holding surfaces as bait may be removed by washing. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface. During follow-up visits, inspect bait placements and reapply when previous applications are no longer visible and/or reinfestation occurs. Do not apply any bait in cockpit area.

### OUTDOOR USE

Use for control of cockroaches. Inject into cracks and crevices around windows and doors, porches, screens, eaves patios, garages, under stairways and other areas adjacent to structures where cockroaches may find harborage.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

**STORAGE:** Store in a cool, dry place away from heat or open flame and inaccessible to children.

**CONTAINER DISPOSAL:** Do not puncture or incinerate! Empty container by using the product according to label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly filled, contact your local solid waste agency or call 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**RE: Final Printed Labeling per Agency Letter dated June 19, 2006 and  
Notification of Alternate Brand Name and minor label revisions per PR Notice 98-10  
TC 248 PC, EPA Reg. No. 499-510**

Dear Ms. Kumar:

Enclosed is a completed application and three (3) copies of final printed labeling (2 formatted and 1 Word document) as revised per Agency comments.

By way of notification, I am adding the alternate brand name: **Prescription Treatment® brand ADVANCE® Cockroach Gel Bait Piston Can** and have made the following minor label revisions:

- ✓ Alphabetized use sites
- ✓ Revised "Active Ingredients" to read singularly "Active Ingredient"
- ✓ Corrected the emergency medical contact telephone number in the First Aid statements as I noticed that we had erroneously included the telephone number for chemical spills
- ✓ Abbreviated words denoting time, i.e. "minutes" to "min" and "hours" to "hr"

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46 and no other changes have been made to the labeling or the CSF of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Also enclosed is a self-addressed, postage paid postcard that, when filled out, would indicate the status of this notification. Please take a moment to fill in the appropriate information and drop it in the mail for our records. Your assistance in this regard is certainly appreciated.

Thank you for your assistance in this matter. Please don't hesitate to contact me at (636) 861-4223 or, via electronic mail at [dana.thomas@wmmg.com](mailto:dana.thomas@wmmg.com), should you have any questions or require additional information concerning this action.

Sincerely,
