TAT  
ROACH TRAP  
GIANT SIZE

FOR USE IN HOMES, APARTMENT BUILDINGS, STORES, RESTAURANTS AND WAREHOUSES.

This Giant Roach Trap permits the largest roaches to enter and feed. For smaller roaches, use regular size TAT Roach Trap.

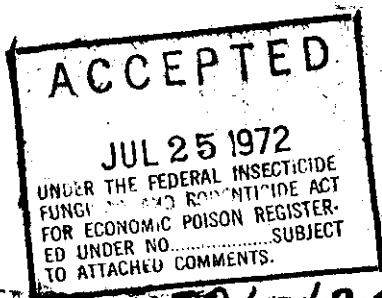

To Use: Punch in semi-perforated holes in side. Place trap where roaches are numerous (near baseboards, in closets, under sinks and refrigerators and in other areas where roaches may hide). Use several for large rooms and heavy infestations. Roaches are night feeders and enter trap in the dark. They leave trap, return to hiding places and die.

WARNING: Contents hazardous if swallowed or absorbed through the skin. Do not get on skin, in eyes, or on clothing. Wash with soap and water after using. Do not contaminate feed or foodstuffs. Place bait boxes (traps) in areas inaccessible to children and pets.

KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS.
