UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES,
AND TOXIC SUBSTANCES

April 23, 2010

Walco-Linck Company
c/o Ms. Kathleen Young
The Homax Group, Inc.
26901 Cannon Road, Suite 190
Bedford Heights, OH 44146

Dear Ms. Young:

Subject: Amended label to add various marketing claims
TAT[®] Ant Trap
EPA Reg. No. 506-137
EPA Decision No. 429004
Submission dated February 2, 2010; resubmission dated April 22, 2010

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable with the following comments:

- On page 1, please delete the optional marketing claim "Guaranteed!" Unqualified guarantees are not permitted. (As an alternative, you may qualify the claim with "...or your money back," or you may make a notation referring the user to the "Money Back Guarantee" or "Ortho Guarantee" statements on pages 3 and 4, respectively.)

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself. This information can be added by non-notification per PR Notice 98-10.

Finally, please note that, should you wish to add/retain a reference to the company's website (www.ortho.com) on your label, then the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, *regardless of whether a website is referenced on your product's label*, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

2017

A stamped copy of the label is enclosed for your records. Please submit two copies of your final printed labeling before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact Julie Chao by phone at: (703) 308-8735, or by email at: chao.julie@epa.gov.

Sincerely,

Kable Bo Davis
Acting Product Manager (07)
Insecticide-Rodenticide Branch
Registration Division (7505P)

*Except Carpenter, Fire, Harvester and Pharaoh Ants

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING.

**USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.
READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES**

Precautions and Restrictions

- Place bait in areas inaccessible to children and domestic animals.
- Do not contaminate feed, food products, food preparation surfaces, dishes, kitchen utensils or food containers.

Application Instructions

- Find indented sections on the sides of the can.
- Simply apply pressure with key until they open (see illustration).
- **Indoors:** Place bait where ants are numerous (under sinks, stoves, refrigerators and cabinets). [Illustrations]
- **Outdoors:** Place bait near ant colonies and along trails. [Illustrations]
- A reduction in activity should be noticeable within one week after bait placement.
- [Ants enter bait and carry food back to nest.]
