Ants, Cockroaches, Crickets

Contact as many insects as possible with the spray in addition to thoroughly spraying all parts of the room suspected of harboring these pests. Pay special attention to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames and trails and other areas of entry. Repeat as necessary.

Carpet Beetles, Fleas, Flea Larvae, Ticks
