d. With respect to your comment on the proper way to conduct a flashpoint, the Agency is currently reevaluating the product chemistry guidelines and expects to revise this data requirement in the near future. In the interim, however, the Agency is evaluating the text of flasmability statement; on a case by case basis. Due to the presence of isobutane and propens, two highly flasmable components in this product, we recommend the Physical/Chemical Hazards paragraph read as follows:

Extremely flammable. Contents under pressure. Reep away from fire, sparks, and heated surfaces. So not puncture or incinerate container. Exposure to temperatures above 1300F may cause bursting.

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca Product Manager (15) Insecticide-Rodenticide Branch Registration Division (87505C)

#### TAT Roach & Ant III

### Front Panel

Pressurized Spray - Residually Kills: Ants, Cockroaches, Ticks, Fleas and Other Listed Insects.

For Use in Homes and Non-Food Areas of Commercial Buildings: Warehouses, Theatres, Office Buildings, Schools, Hotels, Motels, Food Processing Facilities and Kennels. Restaurants.

ACTIVE INGREDIENTS:

0.050% **Pyrethrins** 0.250% -N-Octyl bicycloheptene dicarboximide Permethrin [\*(3-Phenoxyphenyl) methyl (+) cis-trans-3-(2.2dichloroethenyl 2,2-dimethylcyclopropanecarboxylate] 0.200% 0.020% Related compounds INERT INGREDIENTS: 99.480% 100.000%

¹MGK® 264, Insecticide Synergist.

\*cis-trans isomer ratio: Min. 35% (±) cis

Max. 65% (±) trans

EVERCIDE® - Registered Trademark of McLaughlin Gormley King Company.

## KEEP OUT OF REACH OF CHILDREN CAUTION

# STATEMENT OF PRACTICAL TREATMENT

Call a physician or Poison Control Center. Do IF SWALLOWED:

not induce vomiting because of aspiration hazard.

IF IN EYES: Flush with plenty of water. Get medical

attention if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial

respiration if needed.

Remove contaminated clothing. Wash skin with OR CLOTHING: soap and warm water. Get medical attention

if irritation persists.

Net Contents 12 oz.

ACCEPTED with COMMENTS in EPA Letter Dated:

Manufactured by:

WALCO LINCK COMPANY Clifton, NJ 07015

MY 17 1990

Under the Pederal Intersects, Fungicity and Node thick Actus amended for the pesticide registered under EPA Reg. No. 206. 166

IF ON SKIN

## PRECAUTIONARY STATEMENTS

## Hazards to Humans and Domestic Animals

# CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling and before smoking. If poisoning occurs, get prompt medical aid.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. In the home all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

Nonfood area: are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Not for use in USDA Meat and Poultry plants.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried.

## Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General: Use this residual spray as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

#### FOR SPOT TREATMENT:

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs, Earwigs and Carpet Beetles: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards; window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With This Product. Pets should be treated with a registered product for flea and tick control in conjunction with this treatment.

Flies and Mosquitoes: Use only out-of-doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

#### STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area away from heat and open flame.

DISPOSAL: Do not reuse empty container. Securely wrap original

container in several layers of newspaper and discard

in trash.
