PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-888-xxx-xxxx [(the international poison center)] for emergency medical treatment information.	
Note to Physician: Fenitrothion (Sumithion®) is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered but only in conjunction with atropine.	

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Storage and Disposal]

Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Keep pesticides in original containers. **Disposal:** Do not reuse empty containers; wrap and put in trash.

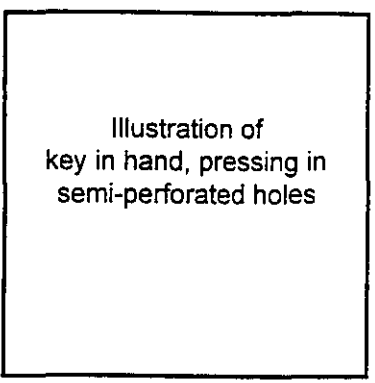

READ ENTIRE LABEL BEFORE USING.
USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.
READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES.

[Remove baits [traps] from tray by placing both thumbs on label of bait [trap]. Push out bait [trap]. Use the baits [traps] on floors, under sinks, refrigerators, in storage areas, on shelves, in cabinets or where ants have been seen. For best results, use several baits [traps] at the same time. Replace baits [traps] as necessary for continuous control.]

Press in semi-perforated holes on side of bait [trap]. Replace baits [traps] as necessary for continuous control. If children or domestic animals may access treatment areas, place traps in areas inaccessible to them. Do not contaminate feed, food products, food preparation surfaces, dishes, kitchen utensils or food containers.

Indoors: Use the baits [traps] on floors, under sinks, under refrigerators, in storage areas, on shelves, in cabinets or wherever ants have been seen. For best results, place several baits [traps] at the same time.

Outdoors: Place bait [trap] near ant colonies and along trails. A reduction in activity should be noticeable within one week after bait [trap] placement.

EFFECTIVE – CLEAN – ECONOMICAL
