TAT® ROACH BAIT V
KILLS: Roaches, Waterbugs, Palmetto Bugs

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
-------------------------------	---

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-888-xxx-xxxx [(the international poison center)] for emergency medical treatment information.

Note to Physician: Fenitrothion (Sumithion®) is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered but only in conjunction with atropine.

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

Environmental Hazards

This product is toxic to birds and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Storage and Disposal]

Storage: Store in a cool dry (preferably locked) storage area inaccessible to children and pets. Keep pesticide in original containers. **Disposal:** Do not reuse empty containers; wrap and put in trash.

READ ENTIRE LABEL BEFORE USING.

USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.
READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES

On the sides of the can you will find several indented sections. Simply apply pressure with a key until they open (see illustration). Place the bait trays [traps] where you have noticed the infestation of roaches. TAT Roach Bait V will take care of the rest. For best results, use 4-6 bait trays [traps] per 100 square feet of surface area to be treated. More bait trays [traps] may be used if infestation is great. If children or domestic animals may access treatment areas, place trays [traps] in areas inaccessible to them.

EFFECTIVE – CLEAN – ECONOMICAL

For continuous good results check regularly and replace every four weeks or as needed. Place bait trays [traps] where roaches are numerous – on shelves, in drawers, near baseboards, under sinks, stoves and refrigerators, in bathrooms, etc. As roaches are night feeders, they enter bait tray [trap] when it's dark. Death occurs soon after feeding. They leave bait tray [trap], return to hiding places and die.

For additional information call 1-800-338-2329

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Money Back Guarantee: If TAT Roach Bait V does not provide satisfactory results return all [number] trays [traps], in their original package, to Walco-Linck.
