Federal Regulations Prohibit CFC Propellants in Aerosols

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General

Shake Well Before Use Do Not Use as a Space Spray

Use this spray only as a spot or crack and crevice treatment to kill cockroaches [roaches], fleas, silverfish, ticks, waterbugs and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet, but not to the point of runoff. Do not allow children or pets to contact treated surfaces until spray has dried. Do not contaminate food or feedstuffs. When used indoors, remove pets and birds and cover fish aquariums before spraying.

Do not apply this product in patient rooms or in any rooms while occupied by the elderly or infirm. Do not apply to classrooms while in use. In the home cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover or remove exposed food. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. Nonfood areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, closets and storage areas (after canning or bottling). Not for use in federally-inspected meat and poultry plants.

For Spot Treatment

[To Kill] Ants, Black Widow Spiders, Carpet Beetles, Cockroaches [Roaches], Crickets, Silverfish, Sowbugs and Spiders	Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing and other utility installations. Directly spray pests driven out of hiding places. For ants, spray ant trails and around doors and windows and wherever else these pests may find entrance.
[To Kill] Fleas and Ticks	Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Remove old pet bedding and replace with clean, fresh bedding after treatment. Do not spray pets with this product. Prior to pets' reentry into treated area, treat pets with a flea and tick control product registered for use on pets.

For Crack and Crevice Treatment

To Kill Ants, Black Widow Spiders, Carpet Beetles, Cockroaches [Roaches], Crickets, Fleas, Silverfish, Sowbugs, Spiders and Ticks	Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where these insects hide. Do not allow spray to contact exposed surfaces and do not introduce the spray into the air. Do not contaminate food handling surfaces.
Flies and Mosquitoes	Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and doorframes as well as other areas where these pests may enter the premise. Also spray dark corners and localized resting areas (such as under eaves) of porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed.

{Domestic/homeowner storage and disposal directions:}

[Storage and Disposal]

Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from sources of heat or ignition. **Disposal:** Replace cap, wrap container and put container in trash. Do not puncture or incinerate. [Alternate Disposal Directions: **Disposal:** This container may be recycled in aerosol recycling centers. At present there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (**Do not puncture!**). If recycling is not available, replace cap, wrap the container and put in trash.]

{Non-domestic/homeowner storage and disposal directions:}

Storage and Disposal

Pesticide Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from sources of heat or ignition. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** This container may be recycled in aerosol recycling centers. At present there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (**Do not puncture!**). If recycling is not available, replace cap, wrap the container and put in trash.

PRECAUTIONARY STATEMENTS
