U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (H7505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:

506-184

Date of Issuance:

SEP 21 2001

Term of Issuance:

Unconditional

Name of Pesticide Product:

TAT Residual Roach & Ant  
Killer

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code)

Walco-Linck Company  
P.O. Box 598  
Valley Cottage, NY 1

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

1. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 506-184".
- b. Add to the FRONT PANEL, "Not for use on plants grown for sale or other commercial use".
- c. Amend CFC statement to: "Contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellents in aerosols".
- d. Remove the word "Improved" from the FRONT PANEL. Comparative claims can not be made on the label.

Signature of Approving Official:

*And Daniel G. G. George LaRocca*

Date:

SEP 21 2001

- e. Remove "...but are not limited to..." from the DIRECTIONS FOR USE.
  - f. Remove the word "Freely" from DIRECTIONS FOR USE, ANTS.
  - g. Under WASPS, MUD DAUBER, ..., add, "Aim spray at nest openings. Applications should be made late in evening when insects are at rest".
  - h. Add "surfaces around" before "light fixtures and cords, etc..." under FLYING INSECTS.
  - i. Either add "Only" to the end of "For Household and Domestic Use" or under DIRECTIONS add, "Not for use in commercial food/feed handling establishments, restaurants or other establishments where food is commercially prepared, processed or served".
2. Submit two copies of the revised final printed label for the record.

# TAT Residual Roach & Ant Killer

For Household and Domestic Use

Contains DeltaGard™ Insecticide  
Water-Based  
For Indoor/Outdoor Use  
Kills Hidden Bugs  
No Unpleasant Odor  
Contains no CFCs

Contains Deltamethrin  
Killing Action and Residual Control  
Broad Spectrum Insect Control  
Non-Staining  
Protects for up to 4 Weeks  
Keeps on Killing for up to 4 Weeks  
Guard Your Home with DeltaGard™

Improved Water-Based Formula  
Long-Lasting Formula  
Kills on Contact  
No Oily [Greasy] Residue  
Won't Stain Carpets and Floors  
Keeps on Killing

Kills Bugs you See and Even the Ones You Don't See

Use TAT Residual Roach & Ant Killer and you will have "Delta Blow" to your home invading bugs

Highly Effective Against [Kills] Ants, Bees, Carpenter Ants, Carpet Beetles, Centipedes, Cockroaches [Roaches],  
Crickets, Firebrats, Fleas, Flour Beetles, Grain Beetles, Ground Beetles, Mole Crickets, Moths, Pillbugs,  
Scorpions, Silverfish, Sowbugs, Spiders, Ticks and Many Other Crawling Insects  
In and Around Homes, Recreational Vehicles [RVs], Cabins, Tents and Other Recreational Structures

Keep Out of Reach of Children

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans & Domestic Animals**

**CAUTION:** Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Thoroughly wash with soap and water after handling. Remove contaminated clothing and wash before reuse. When used indoors, remove pets, birds and cover fish aquariums before spraying.

**First Aid**

<b>If in Eyes:</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> </ul>
<b>If Inhaled:</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li> </ul>
<b>If on Skin or Clothing:</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Immediately rinse skin with plenty of water for 15-20 minutes.</li> </ul>
Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. [You may also call 1-800-338-2329 for emergency medical treatment information.]	

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

**Physical or Chemical Hazards**

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

**Environmental Hazards**

This product is toxic to fish. Do not apply directly to water.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TAT Residual Roach & Ant Killer [This product] has residual action that keeps on killing for up to 4 weeks after it's sprayed. TAT Residual Roach & Ant Killer [This product] will not stain surfaces or fabrics where water alone causes no damage. TAT Residual Roach & Ant Killer [This product] is intended for use in and around residential structures and their immediate surroundings. Repeat treatment as infestations or reinfestations warrant, but not more often than once per week. Permitted areas of use include, but are not limited to, apartments, atriiums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles [RVs], rooms, solariums, storage areas, sun rooms, utility rooms and verandahs.

**Shake Well Before Each Use**

Hold container upright. Do not spray up into the air. Apply only to surfaces. Remove protective cap, hold can on a slight downward angle 12-15 inches from surface being sprayed, and direct spray away from face. Press button down and spray as directed until surface is slightly wet, but not to the point of run-off. When applying outdoors, spray when air is calm or with wind if a breeze is blowing.

**Indoors**

**Cockroaches [Roaches]** (including adult and immature stages of both non-resistant and organophosphate- and carbamate-resistant strains), **ants, booklice, boxelder bugs, centipedes, crickets, dermestids, firebrats, fleas, palmetto bugs, silverfish, sowbugs, ticks and waterbugs:** Thoroughly apply to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden areas around sinks, storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks, stoves, the underside of shelves, drawers, bookcases and similar areas. Directly spray pests that are driven out of hiding places.

**[Roaches:** Spray in cracks and crevices, around baseboards and other hiding places. Directly spray roaches that are driven out of hiding places.]

**Ants:** Freely spray round ant trails, doors, windows and other places where ants enter the house.

**Carpenter Ants:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Ticks and Fleas on Surfaces:** Remove and destroy pet bedding or thoroughly clean. Spray pet resting quarters. Adult fleas and larvae contacted by the spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals with this product. For best results, treat pets with a product labeled for flea and tick control on pets before allowing them to return to the treated areas. Spray rugs and carpets where infestations are severe. Test such articles for staining by spraying an inconspicuous area and allowing to dry before spraying the entire rug or carpet area.

**Spiders:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

**Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks:** Apply around doors, windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

**Silverfish, Crickets and Spiders:** Apply to infested areas or directly spray pests.

**Pantry Pests: Grain Beetles (Rusty, Merchant and Saw-toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles and Tobacco Moths:** Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry then replace shelf paper, food and utensils.

**Carpet Beetles (Black, Furniture and Varied):** Spray on and under edges of floor coverings, under rugs and furniture and in closets or other locations where these insects are found.

**Webbing Clothes Moths:** Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not spray clothing with this product.

### Outdoors

**Pests on outside surfaces of buildings:** To control building infestation of *ants, clover mites, crickets and sowbugs (pillbugs)*, spray building foundation to a height of 2 to 3 feet where insects are active and may find entrance. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas such as screens, window frames, eaves, porches, patios, garages and refuse dumps.

**Crawling Insects: ants, cockroaches [roaches] including Asian cockroaches [roaches], centipedes, crickets, mole crickets and silverfish:** Spray infested surfaces of patio or picnic area, directly spraying as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

**Ants:** Spray around ant trails, hills and nests hidden under steps, brickwork concrete, etc. Break apart accessible nests and spray on and around debris.

[Ants: Spray ant trails and hills. If nest can be located, spray surface of nest.]

**Lone Star Ticks, Dog Ticks, Crickets, Fleas and Earwigs:** Apply to infestation in bushes, grass or weeds.

**Wasps, Mud Daubers, Hornets and Bees:** Spray nests and bees.

**Flying Insects: Houseflies, gnats, mosquitoes and small flying moths:** Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter premises. Also spray localized resting areas such as under eaves, porches, railings, near light fixtures and cords, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

**For the Control of Garden Insects:** For use on ornamental plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, crassula, dahlias, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, grape vine, Kentia palm, laurel, marigolds, rhododendrons, roses, rubber plants, snapdragons, stocks, wandering Jews and zinnias. Use to kill [Effective when used against] *aphids, army worms, exposed thrips, Japanese beetles, lace bugs, leafminers, mites (clover, red and spider), pavement ants, spiders and whiteflies*. May be used

on plants as well as a multi-purpose spray in small gardens and for spot treatments of incipient insect infestations to prevent spreading to large garden areas. When spraying plants, do not operate closer than 18 inches. Use sweeping motion and spray in one-second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Whenever possible directly spray insects.

{The following directions may be used only when product is sold with the soil injector apparatus:}

**Fire Ants:** Treat mounds using soil injector. [Insert soil injector into actuator.] To maximize distribution, insert injector into the mound full length, if possible. Inject the mound at 3 to 5 sites at a rate of 5 to 10 seconds of spray per site. For very large mounds (over 36 inches in diameter), increase the number of injection sites. Space injection sites in a circular pattern on the mound surface with one site in the center. To quiet active ants on the surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

**[Storage and Disposal]**

**Storage:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat or open flame. **Disposal:** Replace cap and discard container in trash. Do not incinerate or puncture. Aerosol can may be disposed of with other recyclables where local law permits.

**Notice**

Buyer assumes all responsibility for safety and use not in accordance with directions.
