OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

SEP -4 2014

SUBJECT: TIMSEN UNIT BLUE BEAUTY-PAK
EPA Registration Number: 507-8
Application Dated: June 3, 2014
Receipt Date: June 9, 2014

Dear Mr. Chaplar:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

- To update label language.

Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data. A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and it's implementing regulation at 40 CFR 152.3.

General Comments

Should you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347 0199 or Velma Noble at (703) 308-6233.

Sincerely,

A handwritten signature in black ink, appearing to read "Velma Noble".

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye and skin burns. Do not get into eyes, on skin or on clothing. Wear goggles or face shield, protective clothing, and rubber gloves. Harmful if swallowed. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

CONTAINER DISPOSAL: Do not reuse empty cardboard container. Discard empty cardboard container in trash.

PACKETTE DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty packette into application equipment, ensure that all product is removed from packette and then offer for recycling if available or dispose of in a sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

It is easy to prepare accurate strength dilutions without waste with **unit blue** portion packettes. See side panels for additional cautions and helpful information for making accurate use solutions.

Premeasured packettes make it easier to prepare accurate strength dilutions without waste.

DISINFECTING SOLUTIONS

One gallon of water added to the contents of 4 packettes of **unit blue** crystals makes a gallon of 1600 ppm active use solution.

or

One quart of water added to the contents of 1 packette of **unit blue** crystals makes a quart of 1600 ppm active use solution.

Completely immerse hard non-porous precleaned combs, brushes, rollers, and other tools and implements for 10 minutes (or longer if required by local authorities).

For combs, scissors and brushes, dispense the prepared solution into counter jars.

Use a basin for brushes, clips and rollers.

65 Individual packettes provide 65 quarts of full strength (1600 ppm) disinfectant solution.

**Anti-rust formula for disinfecting
combs, brushes, scissors, razors, rollers & clips**

Use proper size quart or gallon containers to make accurate use solutions. Use identification labels furnished in this package to properly identify containers with leftover use solutions of unit blue disinfectant. Fresh solution must be prepared daily or more often if solution becomes diluted or soiled. Use care in the preparation and dispensing of all use solutions.

PERFORMANCE: When used and tested with full immersion for 10 minutes in a use solution prepared according to above directions, unit blue germicide has been found to be effective as a disinfectant and as a fungicide (against Trichophyton mentagrophytes), and as a virucide against *influenza A and human immunodeficiency virus Type 1 (HIV-1, AIDS virus) on hard, nonporous, inanimate environmental surfaces.

***KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type I (HIV-1) (AIDS VIRUS).

“SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.”

PERSONAL PROTECTION: Clean up must always be done wearing protective latex gloves, gowns, masks and eye protection.

CLEANING PROCEEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of **unit blue** disinfectant. Dilute 1 packette into 1 gallon of water (400 ppm dilution).

DISPOSAL OF INFECTIOUS MATERIALS: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

CONTACT TIME: Leave surface wet for 2 minutes with 400 ppm **unit blue** Cleaning Solution. Use 10 minute contact time and a 1600 ppm **unit blue** Disinfecting Solution against all other claimed bacterial, virus and fungi.

See inside package for additional uses.

DEODORIZING SOLUTION *(Not for use in California)*

GENERAL DEODORIZATION: To deodorize, add 1 packette of **unit blue** to a quart of water (or equivalent use dilution) (1600 ppm active quat). Spray or mop area to be deodorized concentrating on spraying or mopping near source of odor. Excess material must be wiped up or allowed to air dry. *(Not for use in California)*
