

U-CHEM-CO 3-D - DETERGENT - DISINFECTANT POWER PACKETS - DEODORANT

USDA REGISTRATION #507-9

HOSPITALS - CONValesCENT HOMES - SCHOOLS - FOOD PROCESSING PLANTS - INDUSTRY - INSTITUTIONS

There is a better way to clean, disinfect and deodorize. U-CHEM-CO 3-D is the answer.

Your entire facility will be sparkling clean, germicidally clean and odor-free. U-CHEM-CO 3-D provides you with more safety margin in every application than any product of its type currently on the market. Ten grams in one gallon of hot or cold water provides you with a 1-363 use dilution containing 540 ppm (parts per million) of one of the best germicides available. This germicide also has the unique quality of being one of the most effective deodorants ever developed. Yet it leaves virtually no odor of its own.

U-CHEM-CO 3-D has been tested and approved by licensed laboratories to meet the exacting requirements of the United States Department of Agriculture's current regulations. Copies of all the test data is available to you on request.

U-CHEM-CO 3-D is available in convenient portion packets or bulk cannisters:

U-CHEM-CO 3-D	PACK	NET WEIGHT PER UNIT	MASTER CASE	GROSS WEIGHT PER CASE
#10P	100/unit	2½ lbs	12 units	32 lbs
#50P	25/unit	2 lbs 12 oz	12 units	32 lbs
#5B (bulk)	5 lbs	5 lbs	12 cans	65 lbs

Use directions and hazard statements shown on unit containers and master cases. Make sure to read all instructions on use direction labels carefully prior to use. The material, as manufactured, is highly concentrated.

U-CHEM-CO 3-D can reduce inventory costs, storage costs, freight costs, and most important costly use solution mistakes that sometimes can prove hazardous to personnel and equipment.

U-CHEM-CO 3-D is 100% guaranteed to satisfy your cleaning, disinfecting and deodorizing needs when used as directed or your money will be refunded in full, immediately. Free samples available on request for test purposes. Test and compare U-CHEM-CO 3-D with any product you are now using, and prove to yourself the advantages of using U-CHEM-CO 3-D.

INSTRUCTIONS: FOR CLEANING, DISINFECTING & DEODORIZING

WIPING, WASHING, SPRAYING & MOPPING SOLUTIONS FOR	MIXTURE	INSTRUCTIONS
WALLS--TILE--BATHROOM FIXTURES-- SHOWER STALLS--SAUNA BATHS-- MIRRORS--VENETIAN BLINDS--STAINLESS STEEL CABINETS--FORMICA COUNTERS-- TABLES--PLASTIC COVERED CHAIRS-- FINNE GLASS COUNTER FIXTURES-- REFRIGERATORS--DRAIN BOARDS--COLD ROOM SURFACES	1 packet 5 Gal. Water = 540 ppm	Empty U-CHEM-CO 3-D packet into 5 gal capacity bucket. Fill bucket with warm water. Remove gross filth and heavy soil deposits prior to application of disinfecting solution. Dip, wipe or wash all surfaces in a manner so as to wet thoroughly the surfaces to be treated. Solution will clean, disinfect and deodorize in one operation. Food processing equipment or surfaces coming in contact with food must be rinsed with potable water. Note: hospital surfaces, porous and hard-to-clean surfaces require 2 packets per 5 gallons water = 1080 ppm
TO REACH INACCESSIBLE AREAS, SPRAY APPLICATION MAY BE MORE PRACTICAL. USE SAME USE SOLUTION AS INDICATED.
