NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(1)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 518-71."
 - b. Delete "or wetland." from the environmental hazards section.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-74 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 519-71

PRECAUTIONARY STATEMENTS. HAZARDS TO HUMANS & DOMESTIC ANIMALS.

DANGER Corrosive causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. May be fatal if swallowed. Do not breathe vapors or spray mist. May be absorbed through skin.
FIRST AID If swallowed, immediately drink 1 or 2 glasses of milk. If milk is not available, drink 1 or 2 glasses of water. Then induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. If contact with eyes, flush with water for 15 minutes. Get medical attention. If contact with skin, immediately remove any contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation persists. Wash clothing before reuse.
ENVIRONMENTAL HAZARDS This product is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate those waters by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product must be applied out of doors to wood intended only for exterior use. **BEFORE USE** THOROUGHLY MIX CONTENTS OF CAN. Stir occasionally during use to keep color uniform. Use on clean, unprimed wood or on previously oil-base semi-transparent stained surfaces which are free of all mil-dew. Apply by synthetic bristle brush, spray or dip (dipping 15-30 secs., framing lumber up to 2 mins.). Back brush after spray or dip. Let new decks weather at least one month before first stain coat. The more preservative absorbed by the wood the better, but **DO NOT OVERAPPLY**. Overapplication may cause streaking and prolonged drying time. When adequately absorbed by the wood, the stain dries to a flat finish. The colors will vary somewhat on different woods. Recoating over other colors may affect the color. A sample brush out is recommended. Do not use on hardboard or over creosote base materials. Thoroughly cover cut ends and joints. For best results, apply in the shade with surface temperatures between 50°F and 90°F and which will not fall below 40°F during 24 hours after application. **DO NOT THIN OR MIX WITH ANY OTHER PRODUCT**. To avoid lap marks maintain a wet edge. Depending on wood type, dries to touch in 5 hours, but thorough drying requires 24 hours. If desired, a second coat may be applied at any time after the initial application has dried to the touch. Second coat applications may produce a more intense color. Close container after each use. Do not apply if rain is imminent or rain is forecasted within 12 hours after application. May be applied to damp surfaces but not wet surfaces.

Use only with adequate ventilation.

Coverage for these stains ranges from 150 sq. ft. per gallon for rough sawn materials up to 300 sq. ft. per gallon for smooth materials.

Cleanup Clean brushes and other tools immediately after use with soap and water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed. Do not reuse empty container. Wrap container and put in trash collection.
