

# Chevron

## Directions For Use

Chevron Weed Oil is a light-bodied highly aromatic petroleum oil, which may be diluted up to 2 parts water with one part oil for general control of most annual and many perennial weeds on ditch banks, along roadways, fence lines, railroad right of ways and in orchards, vineyards or groves where non-cultivation is practiced. Also used as a pre-emergence weed killer on row crops such as sweetcorn, onions and tomatoes. Use 20-40 gallons straight oil or mixture 1 part oil-2 parts water, at rate of 30-60 gallons per acre. Application to be made at a minimum of 48-72 hours prior to anticipated plant emergence from the soil. Best results are obtained by spraying weeds when they are small. Spray sufficient on all weeds to be killed to completely cover them with a thin film of oil. Chevron Weed Oil will defoliate practically all plants when applying to orchard floors, citrus groves, and grape vineyards. Use a directed spray and keep off crop stem and foliage. Apply carefully to prevent oil from contacting valuable plants and trees.

Fish and other aquatic life may be killed by this product. Keep out of lakes, streams, or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

## CONDITIONS OF SALE

1. Standard Oil Company of California (manufacturer) warrants that this material conforms to the chemical description of the label and is reasonably fit for use as directed hereon. Manufacturer neither makes nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY guarantee or representation express or implied concerning this material.

2. Critical and unforeseeable factors beyond the manufacturer's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer acknowledges and assumes all risks and liability (except those assumed by the manufacturer under 1 above) resulting from handling, storage and use of this material.

**DANGER! KEEP OUT OF REACH OF CHILDREN  
HARMFUL OR FATAL IF SWALLOWED**

Contains Petroleum Distillate. Keep away from heat or open flame. Use only in well-ventilated area. Avoid prolonged or repeated breathing of vapor or contact with skin or eyes. If swallowed, DO NOT INDUCE VOMITING, CALL A PHYSICIAN IMMEDIATELY.
