

CHEVRON Weed Oil

CONTAINS PETROLEUM DISTILLATE

Active Ingredient	
Petroleum Oil	99.97%
Inert Ingredient	.03%

DIRECTIONS

Chevron Weed Oil is a light-bodied highly aromatic petroleum oil, which may be diluted up to 2 parts water with one part oil for general control of most annual and many perennial weeds on ditch banks, along roadways, fence lines, railroad right of ways and in orchards, vineyards or groves where non-cultivation is practiced. Also used as a preemergence weed killer on row crops such as sweetcorn, onions and tomatoes. Use 20-40 gallons straight oil or mixture 1 part oil - 2 parts water, at rate of 30-60 gallons per acre. Application to be made at a minimum of 48-72 hours prior to anticipated plant emergence from the soil. Best results are obtained by spraying weeds when they are small. Spray sufficient on all weeds to be killed to completely cover them with a thin film of oil. Chevron Weed Oil will defoliate practically all plants when applying to orchard floors, citrus groves, and grape vineyards. Use a directed spray and keep off crop stem and foliage. Apply carefully to prevent oil from contacting valuable plants and trees.

CONDITIONS OF SALE

1. This Company (manufacturer) warrants that this material conforms to the chemical description of the label and is reasonably fit for use as directed hereon. Manufacturer neither makes nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond the manufacturer's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by the manufacturer under 1 above) resulting from handling, storage and use of this material.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful or fatal if swallowed. Avoid breathing of vapor or contact with skin or eyes.

STATEMENT OF PRACTICAL TREATMENT

If swallowed, DO NOT MAKE PERSON VOMIT. CALL A DOCTOR IMMEDIATELY. Ingestion of this product or subsequent vomiting can result in aspiration of light hydrocarbon liquid which can cause pneumonitis.

Note to Physicians: Emergency Information - call (415) 233-3737

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE. DO NOT USE OR STORE near flame, sparks or hot surfaces **USE ONLY IN WELL VENTILATED AREA.** Keep container closed. Clean up spills immediately. Liquid evaporates and forms vapor (fumes) which can catch fire and burn with explosive violence. Invisible vapor spreads easily and can be set on fire by many sources such as pilot lights, welding equipment and electrical motors and switches. Fire hazard is greater as liquid temperature rises above 85° F.

DO NOT weld, heat or drill container. Replace cap or bung. Emptied container still contains hazardous or explosive vapor or liquid.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment.
Open dumping is prohibited

PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to applicable federal, state, or local procedures.

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE SIDE PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS.
