In Accordance with FR Notice 82-2.  
SUPPLEMENTAL LABELING on Draft Labeling Dated 1/10/90

READ AND FOLLOW THE ENTIRE LABEL FOR ROUNDUP RT HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

"Label" as used in this supplemental labeling refers to the label booklet for Roundup RT herbicide and this supplement.

ROUNDUP RT  
Herbicide by Monsanto

EPA Reg. No. 524-308

FOR ANNUAL AND PERENNIAL WEED CONTROL IN ASPARAGUS.

Keep out of reach of children.

**WARNING!**

In case of emergency involving this product, Call Collect, day or night, (314) 694-4000.

Roundup is a registered trademark of Monsanto Company.

**DIRECTIONS FOR USE**

AVOID CONTACT WITH FOLIAGE, GREEN STEMS, DESIRABLE PLANTS AND TREES, SINCE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See "GENERAL INFORMATION" and "APPLICATION EQUIPMENT AND TECHNIQUES" sections of the Roundup RT label for essential product performance information.

When applied as directed for "Cropping Systems" in the Roundup RT label under the conditions described, this product controls weeds listed on the Roundup RT label in asparagus.

For specific rates of application and instructions for control of various annual and perennial weeds, see the "Weeds Controlled" section of the Roundup RT label.

Prior To Crop Emergence - Apply this product prior to crop emergence for the control of emerged labeled annual and perennial weeds. DO NOT APPLY WITHIN A WEEK BEFORE THE FIRST SPEARS EMERGE.

Spot Treatment - Apply this product immediately after cutting, but prior to the emergence of new spears. Do not treat more than 10 percent of the total field area to be harvested. Do not harvest 5 days of treatment.

**BEST AVAILABLE COPY**

212

Postharvest - Apply this product after the last harvest and all spears have been removed.. If spears are allowed to regrow, delay application until ferns have developed. Delayed treatments should be applied as directed or shielded spray in order to avoid contact of the spray with ferns, stems or spears. Direct contact of the spray with the asparagus may result in serious crop injury.

NOTE: Select and use recommended types of spray equipment for postemergence postharvest applications. A directed spray is any application where the spray pattern is aligned in such a way as to avoid direct contact of the spray with the crop. A shielded spray is any application where a physical barrier is positioned and maintained between the spray and the crop to prevent contact of the spray with the crop.

---

Read the "Limit of Warranty and Liability" in the label booklet for Roundup RT before using. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
